GRADING STANDARDS

COINS

(Kagin's uses strict ANA grading standards)

GEM BRILLIANT PROOF-67

Nearly flawless, with almost no hairlines, handling marks or other defects. (Brilliant may be omitted if not properly descriptive of piece.)

CHOICE BRILLIANT PROOF-65

May show some very fine hairlines, usually from friction-type cleaning or friction-type drying or rubbing after dipping. (Brilliant may be omitted.)

SELECT BRILLIANT PROOF-63

Midway between Proof-65 and Proof-60. (Brilliant may be omitted.)

PROOF-60

Some scattered handling marks and hairlines which will be visible to the unaided eye.

MS-67 GEM BRILLIANT UNCIRCULATED

No bag marks, hairlines, or other evidence of handling or contact with other coins. (Brilliant may be omitted.)

MS-65 CHOICE BRILLIANT UNCIRCULATED

Fully struck with only a bare minimum of minor abrasions. (Brilliant may be omitted.)

MS-63 SELECT BRILLIANT UNCIRCULATED

Nicely struck with fewer than usual bag marks, nice luster. (Brilliant may be omitted.)

MS-60 BRILLIANT UNCIRCULATED

Strictly uncirculated with no evidence of wear, only a moderate number of bag marks on surface. (Brilliant may be omitted.)

CHOICE AU-55 (Choice About Uncirculated)

Bare traces of friction at the highest points.

AU-50 (About Uncirculated)

Traces of wear on many of the highest points. At least half of the original luster is present.

CHOICE EF-45 (Choice Extremely Fine)

Light overall wear on highest points, all design details very sharp. Mint luster is usually seen only in protected areas of the coin's surface.

EF-40 (Extremely Fine)

Slightly more than EF-45, still with excellent overall sharpness. Traces of mint luster may still show.

VF-30 (Very Fine)

Light even wear on the surface, design details on the highest points lightly worn, sharp lettering and major features.

VF-20 (Very Fine)

As VF-30, but with moderate wear on highest parts.

Fine-12

Moderate to considerable even wear.

VG-8 (Very Good)

Well worn, most fine details worn nearly smooth.

GOOD-4

Heavily worn, major designs visible, but with faintness in areas, without center detail.

CURRENCY

SUPERB GEM CRISP UNCIRCULATED

A flawless note. Perfectly centered with sharp corners. Full brightness and absolutely no handling or other impairments. Wider than usual margins.

GEM CRISP UNCIRCULATED

Bright and well centered. Full original crispness with no handling or aging. A virtually flawless note.

CHOICE CRISP UNCIRCULATED

Flawless appearance. Close examination might reveal teller handling, minute pinholes, or very light aging. A note with an excess of the above-mentioned defects would not be considered Choice.

CRISP UNCIRCULATED

No folds or corner creases. May have obvious aging, rounded corners, handling marks, pinholes, or other flaws that indicate mishandling. A note that does not retain full crispness or appears starched should be examined for processed or pressed-out folds.

ABOUT UNCIRCULATED

The criteria are basically the same as for Uncirculated, but a note may have a single fold or several small corner creases.

EXTREMELY FINE

Two or three creases evident. The note should be bright and retain nearly full crispness.

VERY FINE

Notes show obvious use. May have several folds and have started to lose some original crispness. Light soiling due to normal handling is accepted.

FINE

Very little original crispness evident. Still exhibits original brightness, but shows much handling and soiling.

VERY GOOD

May be soiled and well worn. All engraved features clear and complete. Margins must be intact.

GOOD

Heavily soiled with no original color or body. May have frayed margins and small tears. Engraved features will be visible but not bold.

PLEASE NOTE

Each session has been accorded its own unique block of numbers.

OVER THE YEARS

Commentaries based on cataloging 330 sales

The ANA 1983 Convention Auction — our 330th sale — is now history. However, several of the events which transpired there will have lasting effects.

Peter Max, the great artist who designed the cover of our ANA auction catalog, made a personal appearance at the convention and autographed many of the posters available for sale. These posters were an enlargement of the original rendering of Liberty which appeared on the cover of the auction catalog. A lithograph of Liberty was donated to the ANA and will be displayed at the association's headquarters in Colorado Springs.

Peter Max was "The Great Communicator" to the thousands of collectors and visitors who viewed his inspired creation: he communicated most effectively the feelings of numismatists towards Liberty. His raising the level of artistry in numismatic illustration causes me to ask why this gifted talent in creating new designs can't be utilized for United States coinage. Augustus Saint-Gaudens, whose designs resulted in the production of our most beautiful coins, was an artist and sculptor. One of Max's designs has already been produced as a United States stamp. Perhaps he could become the first artist to design both a U.S. stamp and U.S. coins. May I suggest that those having the same feeling about Peter Max's work write *The Numismatist*, *Coin World*, *Numismatic News*, *COINage*, *Coins*, and other publications expressing their viewpoint.

After being informed that I had been elected to the ANA Board of Governors, I felt content that I would now have a greater opportunity to share my experience and

the knowledge I have acquired in my past half century in numismatics. But the surprise award of the ANA Medal of Merit has deepened my commitment. I will now give priority to numismatic education and writing, instead of just working in these areas whenever it is convenient.

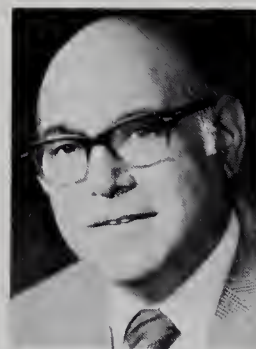

Don also received an award. He was voted the best columnist in the nation's numismatic newspapers by the Numismatic Literary Guild. This award will help in his continuing the columns in spite of increasing demands on his time.

The ANA auction proved to be a revelation in many aspects. We had anticipated that lots would be auctioned at the rate of about 200 per hour, but the keen interest and wide participation of both collectors and dealers resulted in the pace being slowed to about 150 lots per hour. Many items eventually sold at three to five times the opening bids.

We tried to have as many categories represented as possible. The "Americas" collection was quite an eye-opener to us. The strength and participation in bidding was amazing. While a few of the various series went at close to bargain prices, quite a number set new records.

The experimental small size U.S. note, Lot 4217, opened at \$280 and was bid up on the floor to almost \$5,000! While the note is unique, it is difficult to appraise its worth. The strength of collector interest finally dictated its value. In the present, strongly investor-oriented aspect of numismatics, we are prone to sometimes forget the ultimate consumer, the collector.

HOW TO BID

What to Bid On:

As you read through the catalog for the first time, record the numbers of all the lots you are interested in on a worksheet. If you are interested in specific types of coins, be sure to check the catalog index.

How Much to Bid:

The price you bid is determined by you. You must remember the value that you place on the coins. Check the descriptions in the catalog and decide what you are willing to pay. You should bid generously on the lots you strongly wish to obtain. If there are some lot you would like to have "if the price is right," then you may want to place nominal bids on those lots. Because a number of collectors choose to bid on many lots, the number of successful bids will be relatively small. This is controlled by a very active market. **You can safely extend your bidding** (and take advantage of a "bargain") by placing a dollar total limit on your bids. Should your total be reached before all your bids are executed, we will then terminate your bidding.

Remember that your bids are limits. It is possible, and quite often does occur, that you will succeed in purchasing a lot for less than your bid since we start the floor bidding at about 5-10% above the second highest mail bid. *Example: You bid \$500.00 on the lot and the next highest mail bid is \$400.00; we start the lot bid at \$425.00. If there are no bids from the floor, you will then be awarded the lot at \$425.00 — or if the floor bidding stops at perhaps \$450.00 or \$475.00, then you will receive the lot at a small advance above the top floor bid. If bidding continues above the \$500.00, then that floor bidder will be awarded the lot.*

How to Fill Out the Bid Sheet:

On the Bid Sheet you will observe that there are two different column headings: Lot and Bid. When you decide on which lots you want to bid, enter the lot numbers under the proper column and the maximum amounts you are willing to pay for those lots in the proper column.

LOT	BID	LOT	BID
482	550.00		
517	900.00		
614	130.00		

If you have circled one of the increase percentages, you will be allowing us to increase your maximum bid in order to obtain the lot which is going for more than you had anticipated. We will buy the lots for you as low as possible as outlined in the TERMS OF SALE.

YOU ARE THERE

If you are unable to attend Kagin's auction, you can bid on material by mail or take advantage of Kagin's "unique" YOU ARE THERE SERVICE. A.M. (Art) or Don Kagin will personally serve as your representative at the auction. Through an innovative banking arrangement, Kagin's now offers auction clients financing of up to 50% on purchases exceeding \$5,000.

Your material serves as collateral. A financial statement may be required although everyone qualifies.

Here are the basic procedures:

Your first step is to notify our auction department that you want to leverage your purchases. Indicate this on your Bid Sheet or registration card.

If you are floor bidder, you will be invoiced for your material and asked to leave a check for 50% of your purchases. Your material and a copy of the invoice will be sent directly to the West Coast Bank from our office. You will receive a copy of your invoice confirming shipment.

If you are a mail bidder, we will invoice the material and ship it directly to you for your approval. Note that 50% of the total of your invoice is due upon receipt of your material.

You then must ship the material to the West Coast Bank.

Once West Coast Bank receives the material and invoice, it will forward your loan documents to you. Complete and return them to West Coast, and the bank will send a check to our company for the remaining 50% of your purchases.

Upon receipt of the balance from West Coast Bank, we will then forward to you notice of "PAYMENT IN FULL" for your auction purchases.

Kagin's leveraging program provides a simple and direct method to virtually DOUBLE your purchasing power and enables you to take advantage of today's excellent buying opportunities.

THE SANTA MONICA COLLECTION OF LARGE CENTS

Major collections of large cents have rarely been offered on the American auction market in recent years. The last major offering of large cents was at Kagin's 1977 ANA Sale, where an extensive collection belonging to Judge Eberspacher was sold. In the Stack's 1976 ANA Auction, a moderate collection, mostly the property of the Museum of Fine Arts, was sold. The other collection of special note was the Naftzger Collection sold in 1973 by New Netherlands Coin Co., cataloged by Jon Hanson. The only other major group sold (a specialized selection of 1794 only) was offered at fixed prices (the Adams Collection, sold by Bowers & Ruddy in 1982). Kagin's is indeed proud to have offered to the public two of the only four major large cent collections sold in the past ten years.

Large cents have always been the granddaddy of American numismatics, and certainly more has been written on this field than any other. There are many patriarchs of the hobby such as Sylvester Crosby who published a meticulous study of 1793 cents in 1897. Dr. Edward Maris wrote on the 1794 cents in 1869, and many of the quaint names he gave the varieties then are still used. Famous early collectors had notable large cent holdings, including Garrett, Hines, Mougey, Beckwith, Gilbert, Clapp, French, Pearl, Newcomb, Sheldon, Downing, Ryder and many more. Certainly Dr. W. H. Sheldon's book *Early American Cents* heralded a whole new era for the hobby. He introduced the standard grading system from 1 to

70, now virtually standard in the hobby, and a rarity scale from 1 to 8, equally universally employed. The concept of condition census as espoused by Sheldon is widely utilized.

Kagin's is happy to present this outstanding collection of large cents, including many condition census pieces, two proof coins, and many other choice specimens. Many of these pieces have been off the market for more than a generation, and we hope that some of the newer collectors can participate in the thrill of owning a coin previously in other famous collections back to the turn of the century. Every effort has been made to present accurate pedigree on the coins sold — but as any serious aficionado knows, absolute accuracy on pedigrees is impossible. With the diligent and most expert cooperation of Del Bland of Bothel, Washington, it was possible to trace back and improve many pedigrees, and correct many subtle errors. Del also was able to provide updated condition census information based on the data he provided the EAC Society over the years. He also consulted with us on the grading of many of the pieces, since the grades of 25 years ago are not necessarily accurate today.

NOTE: Grades used in this Large Cent section conform with the ANA grading system. EAC people are more familiar with VG-10, Fine-15, Fine-18, VF-25, VF-35 and MS-70. For consistency throughout the catalog, these grades were not used as frequently.

LARGE CENTS

FLOWING HAIR, CHAIN REVERSE — 1793

- 1001 **1793 S-4 VF-30**, but neatly plugged at 4 o'clock. The leaning R variety. A most acceptable appearing specimen, even brown color, minimal edge damage. Few minor scrapes on lower obverse, plug is not visible on cursory examination. Small scratch through the 3.

This design for the first American cent by designer Henry Voigt produced a charming, delicate design but one that did not wear well in use. It was replaced during the year with the more accepted designs of Adam Eckfeldt. EX: Beebe's ANA Auction, August 26, 1955, Lot 1817.

FLOWING HAIR, WREATH REVERSE — 1793

SEE COLOR PLATE

- 1002 **1793 S-6 VF-25**. An attractive even brown on a lustrous uniform flan. This is the buckled die type, with well developed die crack behind the head, a thin crack from the lips to the border and the break through TE of UNITED.

To be precise there are a few minor pits in the flan in the left field, a minor short scratch through the 1 of 1793, and two minor rim dings. Graded a VF-25 in Downing Sale (1952) and VF-30 in Schwartz Sale (1961). EX: Chris Peterson; Homer K. Downing; NNC 1952 ANA Sale, Lot 1620; Dr. William H. Sheldon; Raymond K. Gallo; A. Kosoff Oct. 11, 1961, Lot 5; R. E. Naftzger, Jr.; A. Kosoff, privately.

LARGE CENTS

SEE COLOR PLATE

1003 **1793 S-8 VF-30**. An attractive even light brown with obverse beads well centered. Called the horizontal stem type due to the obverse sprig stem paralleling the date. Reverse has triangular bow and defined die break from the first T of STATES to last A of AMERICA. Moderately scarce type, rated lower range R-3. When previously sold called Extremely Fine by Mehl — the reverse is clearly so but obverse is in high VF state. Rim virtually nick-free. EX: Will. W. Neil; B. Max Mehl June 1947, Lot 1804; Imperial Coin Co. (Ben Stack) 1956.

1006 **1794**, Shattered obverse, S-23, **VF-20**. Called standless 4 by Maris. An obvious strong break from bottom of pole through the jaw. Rated an R-5, and Sheldon notes no more than 9 or 10 Hays 18's (this piece) known above Fine. This piece partially marred by light initials scratched in the obverse field. Just slightly inferior to Adams 13 at VF-30. EX: Richard Picker; Edward H. Schwartz; Kosoff Oct., 1961, Lot 24.

1004 **1793 S-11a VF-25**, with some claims to VF-30. A rare die combination, now called R-5, the same dies as used on the lettered edge type, but this has the old vine and bars edge. Reverse weak at bottom as usual, two minor edge dings. Even brown color, and without the variations in flan size or quality usually associated with this coin. Only two mint state pieces known. EX: Dr. George P. French, privately; Coin Galleries (Stack's) 1956.

1007 **1794**, the ornate obverse, tailed right ribbon, S-29, **VF-30**, with good case for EF-40. Obverse die breaks, smooth lustrous light brown with darker brown highlights. Has the reported reverse die break. Slight even wear with virtually no handling marks. EX: Associated Coin Auctions, April 1956, Lot 543.

LIBERTY CAP — 1793-1796

1005 **1793 S-14 VG-8**. Previously called Fine-12. The famous bisecting crack type, with vertical crack from E of LIBERTY to 3 of 1793. Liberty is bold, dates weak, characteristic of die, with several shallow scratches through the date. In the old days always a great rarity (Chapman said in 1913 Sargent Sale it was the first he had sold), but low grade copies are around and hence a lower range R-5. Ryder's was a VF-20 but tooled, T. J. Clarke, 1956, was a VG-10. EX: Bonanza Coins; Edward H. Schwartz; Kosoff Oct., 1961, Lot 14.

1008 **1794**, marred field obverse with long fraction bar, S-31, **VF-20**, near VF-30 but downgraded slightly due to slight roughness in obverse field. Light brown color. Not present in Adams Collection, as apparently a suitably pedigreed specimen was not available.

LARGE CENTS

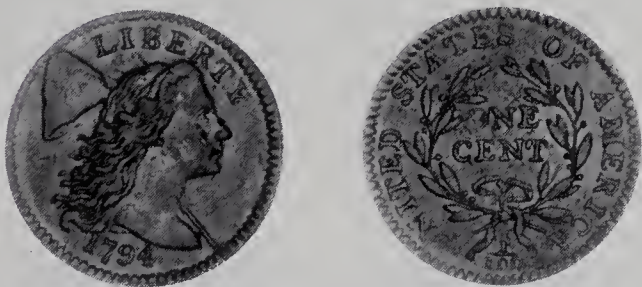

- 1009 **1794**, the short bust variety, S-43, **VF-30**. Virtually a dead tie for Adams 36 in VF-30, which sold for \$1,300. Perhaps it's a bit sharper than the Adams piece, but has a few more field marks. Even medium brown color with lighter highlights. Sheldon notes difficulty in finding above VF. Strong break through 17 of 1794, break through U of UNITED, weakly struck OF. Worthy of a good bid. EX: "Anderson DuPont"; Stack's Sept. 1954, Lot 62; Dorothy Paschal; Admiral W. S. Bitler, 1960; A. Kosoff, privately.

SEE COLOR PLATE

- 1010 **1794**, short bust variety, large berry opposite C on reverse, S-44, **AU-50**. Virtually a dead tie for the 3rd finest known (tied with 6 or 7 others pieces) fully matching the Adams 37 piece which sold for \$3,750 in 1982. A more advanced die state than the Adams coin, but on a much more uniform planchet. It is light to medium brown with lighter brown highlights on the obverse. Truly a prize coin and may have not been counted by Sheldon. Kosoff notes: "A beautiful even light brown, acquired as an MS-60 but will not quite meet that grading. Perhaps equal to the Proskey-Hines-Sargent-ANS AU-55. Sheldon knows of no MS60." The NNC-Naftzger piece in strong AU-55 sold for \$2,300 in November 1973. EX: Dr. James O. Sloss; Kosoff, November 1959, Lot 17.

- 1011 **1794**, Patagonian obverse, S-60, **VF-30**. Piece so named by Dr. Maris, has thick hair, close date and reverse right ribbon high. A similarly graded specimen sold as Adams 59 for \$1,300, but this is vastly superior on the reverse and a clearly more desirable coin. The Naftzger coin in the 1973 NNC offering was also on a rough flan at VF-30. The Bowers & Ruddy McFarland Sale sold a specimen as Lot 87 graded as EF-40 for \$1,500, but this specimen fully as sharp with a much superior reverse. For completeness, the present piece has a couple of minor nicks on the face below the eye, otherwise nothing worth noting. In medium brown, with slightly lighter highlights. An absolutely delightful cent. EX: J. C. Morganthau & Co.; Milton A. Holmes; Stack's October 1960, Lot 1380.

SEE COLOR PLATE

- 1012 **1794**, the fallen 4 variety, S-63, **AU-50**, but a near case for AU-55. Liberty is flush against the border, Clapp calls this the *drunken die cutters* obverse because of gross misspacing. This piece is virtually identical to Adams 63 at AU-55 at \$5,500 — maybe an extra trace of hair rub, but with clearly superior fields. When described by Bolender called: "ex. fine and very nearly uncirculated. Beautifully struck with complete milled border." Dark black-brown steel color with some deep red mint highlights on obverse and reverse. Rated an R-3. EX: Willard C. Blaisdell; Henry A. Sternberg; M. H. Bolender Mar. 1956, Lot 1565 with original photo illustration attached.

- 1013 **1794**, the bisecting die crack, S-68, **Fine-12**. A rare variety rated as R-5. Kosoff called this specimen "Easily VF-20, with obverse even better, making it a condition census piece." Although no longer considered the latter, this is still a very attractive piece, and as Sheldon says "bidding is always brisk when a Hays 55 (this coin) is offered." Even medium brown color, no problems excepting weakness at center of reverse. EX: 1957 ANA Sale, Lot 798; Edward H. Schwartz; Kosoff Oct., 1961, Lot 78 illustrated.

- 1014 **1794**, five braided locks, S-69, **VF-35**. Although we hesitate to call this coin an EF-40 as sold by Kosoff from Bitler it is clearly superior to Adams 72 which sold for \$1,300. This has slightly less wear, far better fields than the Adams piece. Medium brown color with lighter brown highlights in protected areas. EX: Adm. W. S. Bitler, 1960; Kosoff, privately.

1015 **1794**, another type of the five braided locks, S-70, **AU-50**. When sold as Lot 81 in the Schwartz Sale, called AU-55, but this is a virtual twin to Adams 73 denoted as an AU-50 selling for \$3,500. Similar die states with crack from TY to above eye, deep borders and reverse is superior to the Adams coin. Kosoff called: "soft gray and brown. An outstanding coin." Need we say more? One of the top known pieces. EX: Charles M. Williams; Numismatic Gallery Nov. 1950, Lot 82; R. E. Naftzger, Jr.; A. Kosoff Oct. 1959, Lot 24; A. Kosoff Oct. 1961 Lot 81, illustrated.

SEE COLOR PLATE

1016 **1795**, lettered edge, double leaf right reverse, S-75, **MS-60 Uncirculated**. This near perfect specimen was acquired from the E. Taylor Collection as an MS-65. This is a bit optimistic, but the coin clearly has no wear and virtually no contact marks. Obverse flan is smooth but has a few surface bubbles, and the reverse is perfect. Light brown color with some underlying red highlights. Misses the top ratings due to the pin point flan defects. EX: Emanuel Taylor, Oct. 1960; A. Kosoff, privately.

1017 **1795**, plain edge, S-77, **VF-35** obverse, **EF-40** reverse. Obverse is weakly struck, rounded flan edge on right obverse, but reverse flan even and well struck. Rated a low range R-4 and may tie for eighth finest known with several others. Immaculate surfaces, but minor cut behind the cap. Even medium brown color. EX: Imperial Coin Co. (Ben Stack) 1956.

1018 **1796**, pole connected to bust, S-83, **VF-25**. There is a strong case for a higher grade, as hair is thin. This is the advanced die state with break over B and through ERTY to border. Medium to dark brown color, some lighter highlights and minor reverse nicks. EX: John P. Young; M. H. Bolender Sept. 1951, Lot 51; Henry A. Sternberg; M. H. Bolender Mar. 1956, Lot 1588.

1019 **1796**, low 6, double leaf left of ONE, S-87, **VF-20**. When purchased at auction in 1963, called a VF-30, but this is too generous and VF-20 more to the point. Light brown to medium in color, few contact marks but attractive example. EX: Abner Kreisberg June 1963, Lot 168.

1020 **1796**, the club pole, S-88, **Fine-12** or better. Grading this coin is difficult — struck on a rough flan. Kosoff called it better than the above lot, referring to the S-88 Schwartz piece, approaching a 20 in grade. Even dark brown color, left rims weak. Rated an R-4. EX: Emanuel Taylor; A. Kosoff Oct., 1961 Lot 105 and illustrated.

FIFTH FINEST KNOWN SPECIMEN 1796 S-90

SEE COLOR PLATE

- 1021 **1796**, crowded head, double leaf under the T, S-90, **AU-50**. An extremely rare variety with only 12 known, an R-7 when Sheldon was republished in 1958. Today a low range R-6 with the discovery of a number more. Only four coins known above 15, the Naftzger-Downing gem sold for \$4,500 in 1973. This piece was described as Choice About Uncirculated when sold by Bolender. All in all the fifth best known, as it was not accounted for by Dr. Sheldon. Has a very small flan clip at 8 o'clock, 3 minor reverse dings but with immaculate surfaces. Lovely medium brown with lighter highlights. Includes a small note from G. H. Clapp which notes this is only second piece he had seen without an upset reverse. EX: John P. Young; M. H. Bolender Sept. 1951, Lot 55 at \$273.

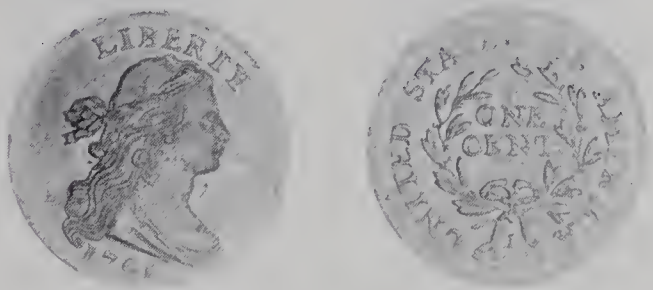

DRAPED BUST — 1796-1807

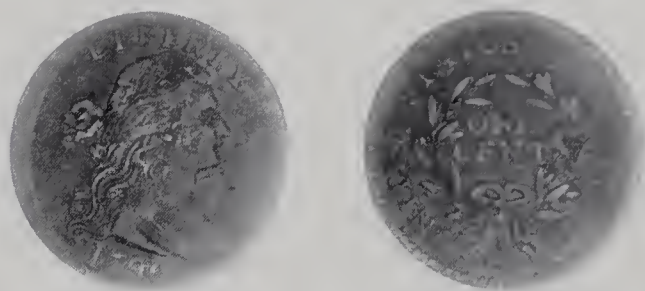

SEE COLOR PLATE

- 1022 **1796**, close 96, single leaves, S-92, **AU-50**. The 6 leans right, obverse rims are almost non-existent as on most. Very strong double profile as often seen, as noted by Sheldon. Not as strong as the Proskey-Hines-Naftzger coin, but a superior flan. Even light brown color. Probably a condition census piece in a five or six way tie. EX: Numismatic Gallery F.P.L. Feb.-Mar. 1951; A. Kosoff, privately.

THIRD BEST KNOWN 1796 S-102

- 1023 **1796**, defects over date, S-102, **EF-40**. This piece from the Gallo Collection, is third best known and is nearly equal to Lot 420 in the NNC Naftzger Sale, the EF-40 there was EX: French, Clarke and Sheldon. The census without this piece reads 45-40-35-35-30-30. A lovely piece, with some minor obverse marks, two small rim dings, with one on reverse and reverse flan edge weakness. Nice medium even brown color, few highlights. EX: Raymond P. Gallo, Oct. 1960; A. Kosoff, privately.

- 1024 **1796**, date slants right, S-106, **Fine-12**. When described by Kosoff, listed as: "Liberty very bold, date weak at bottom. Steel color, upper range of R-5 and may prove to be an R-6. F12. Superior to DuPont, Warfield or Downings." Current data proves it to be a lower range R-5. EX: Frank Parks; Edward H. Schwartz; A. Kosoff Oct., 1961, Lot 122.

TIED FOR SECOND FINEST KNOWN 1796 S-111

SEE COLOR PLATE

- 1025 **1796**, date leans right, close 96, S-111, **VF-30**. We are using the grade of VF-30 as used by Kosoff, and by NNC for the Naftzger coin, Lot 425, a virtual twin also at VF-30. This coin had the largest write-up of any coin in the Schwartz Sale. We quote as follows: "A beautiful cent, second finest known of this variety and probably the finest available to collectors, the top piece being in ANS." Natural dark brown color, well struck and centered. This piece was unknown to Dr. Sheldon when he compiled his *Early American Cents*. Apparently the information was not given to Dr. Sheldon or it was mislaid for *Penny Whimsey* still does not list it. Undoubtedly future editions will include this item for it is, in Ed Schwartz's words, "the highlight of the entire collection and rates as an aristocrat of centdom." In his enthusiasm, Schwartz rated this rarity as XF-40. No attempt will be made to estimate the value of this item. It should bring well into four figures. The coin sold for \$600. The gap in condition census of Sheldon from 55 to 15 was filled by this coin, the Naftzger piece, Lot 425 EX: Craig, Picker, Paschal and Sheldon and one other. In a tie for second best, c.c. reading 55-30-30-30-25-20. EX: Otto Steinberger; Edward H. Schwartz; A. Kosoff Oct., 1961, Lot 127, illustrated.

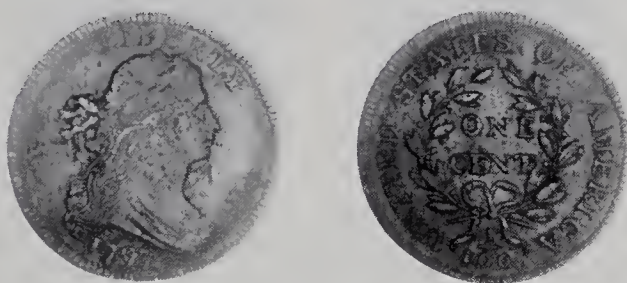

- 1026 **1796**, 6 in the drapery, S-114, **VF-25**. Another piece that is rare in any condition above 30 (three known) and rates an R-5. Little wear, but weak at BER of LIBERTY, apparent corrosion spot at 7 o'clock and cut through 6. Low end of condition census. EX: Thomas P. Warfield; Associated Coin Auction Co. Oct. 1955, Lot 227; Edward H. Schwartz; A. Kosoff Oct. 1961, Lot 130.

- 1027 **1796**, high 6, tilted left, S-115, **Fine-12**. A rare variety, with two massive obverse die breaks. The Schwartz piece was VG-10, very inferior to this, and Naftzger's Lot 430 at Fine-15 was slightly sharper than this, so the Fine-12 designation appears to be a good compromise. Although not near condition census still one of best in collector's hands as four are at ANS. EX: *Adm. W. S. Bitler, 1960; A. Kosoff privately.*

TIED FOR THIRD FINEST
RARE 1797 CENT, S-125

- 1028 **1797**, compact date, heavy swelling, S-125, **VF-25**. Graded VF-35 when sold in 1963 by New Netherlands where a featured specimen. Quoting from that sale: "S-125 (R-7). Clapp-Newcomb 8. Severely injured obv. die; E of ONE directly above T of CENT. Very Fine-35. Granularly mottled green and brown patina, with the usual minute defects characteristic of Boulton & Watt Soho planchets (as on the 'Nichols Find' coins) but with no blemishes made after striking, unless it be the slight and even wear. Obverse flatness is entirely attributable to the severe die injuries, the obv. showing signs of at least four clashes with the reverse. Reverse exceptionally bold for this die state, evenly struck up and pleasing. Dentilation on both sides is bold and deep. A most extraordinary example, approached in grade by only one other known to us, and far finer than any of the eleven pieces known to Sheldon. This coin will be a runaway. Worth four figures, and it should bring it!" Actually sold for \$925 (and remember that was in 1963). We have regraded as a VF-25 mainly due to unusual patination — there is a good case for calling this "VF-35," as did New Netherlands. EX: a *Pennsylvania consignment; NNC Sale 57, Dec. 12, 1963, Lot 22; R. E. Naftzger, Jr.; A. Kosoff, privately.*

SEE COLOR PLATE

- 1029 **1797**, the 1 and points of 7 touch bust, S-128, **Choice EF-45**. There is die corrosion on the bust, making the strike appear poor, but this is not wear. There is a heavy die break through the bust, and the piece compares favorably with the Naftzger Lot 444, except for the die corrosion on this piece. Revised census 60-50-50-45-45-45, low R-3. Tied for 4th best without allowing for corrosion. Beautiful medium glossy brown, with lighter highlights in protected areas. EX: *S. J. Kabealo Sale, Feb. 1956.*

RARE 1797 STEMLESS WREATH VARIETY

- 1030 **1797**, stemless wreath type, S-131, **VF-35** with strong claims to a higher grade. Late die state with break at 10 o'clock and the vertical crack in front of the bust. Not in the league of the Naftzger piece at EF-40, which appears even better, but this Lahrman piece was fifth or so finest known. This coin was condition census until recently when two new EF-40 specimens surfaced. Even brown color with some surface toning probably due to die surfaces. EX: *Frederic W. Geiss; B. Max Mehl Feb. 1947, Lot 38; Lee G. Lahrman; A. Kosoff Feb. 1963, Lot 190.*

- 1031 **1797**, R touches, 7 does not, S-139, **EF-40**. Bought as an EF-45 from Empire Coin, Johnson City, in April 1962. The sharpness of the hair is lacking because of the die bulge at left, a break at lower left, and corresponding weakness on the reverse. Attractive medium brown color with lighter brown highlights in protected areas. EX: *Empire Coin Co., F.P.L. No. 15, Mar.-April 1962.*

SEE COLOR PLATE

1032 **1797**, imperfect T, swelling at bust, S-140, **EF-40**. A beautiful coin, with swelling at the bust, giving corresponding weakness on reverse. A magnificent black steel color, with red iridescence. In an advanced die state. Beautiful condition with only a few minor contact marks. Originally purchased as an AU-50. EX: Imperial Coin Co. (Ben Stack), April 1956.

1033 **1797**, compact date, 7 inbedded, S-142, **Good-6**. Struck on a tapered flan, with weak left side and corresponding reverse weak in same area. Not in Clarke, Dupont or Sloss, but nice F-15 in Naftzger. A R-5 in revised listings. EX: Walter Breen; Thos. P. Warfield; Associated Coin Auction Co. Oct. 1955, Lot 256; Willard C. Blaisdell; Edward H. Schwartz; A. Kosoff Oct. 1961, Lot 164.

1034 **1798**, large close date, S-145, **Fine-12**. Purchased at auction as VF-20, but not up to par. Fraction bar attached to right ribbon by thin line. Dark brown color, with high points in medium brown. EX: Kreisberg Sale June 17, 1963, Lot 178 at \$80.

1035 **1798**, triangular island below left corner of E of LIBERTY, S-146, **Fine-12**. Graded in Empire Sale as F-12, Kosoff called it F-15. From state b of the dies, the wear is only that of a VF-20, but numerous contact marks reduce to F-12, although reverse slightly better. Even medium brown, some highlighting. A high R-5, the old condition census shows only four better than F-12. EX: Dr. Charles A. Cass; Stack's Nov. 1957, Lot 144; C. Douglas Smith; Edward H. Schwartz; A. Kosoff Oct. 1961, Lot 167; R. E. Naftzger, Jr.; Kosoff, privately.

1036 **1798**, unfinished top of hair, S-163, About **Fine-12**, possibly the EAC grade of VG-10 is better. A scarce piece, now a lower range R-5, called full F-12 by Kosoff. Obverse appears mildly corroded, and has a medium brown color. Probably just below condition census. EX: Emanuel Taylor; A. Kosoff Oct. 1961, Lot 187.

TIED FOR SIXTH BEST KNOWN 1798 S-167

SEE COLOR PLATE

1037 **1798**, whisker variety, crack through 8, S-167, **Choice AU-55**. Sharp central devices but with slight weakness on Liberty's bust and corresponding area on reverse. Obverse denticles weak or non-existent from 9 o'clock to 2 o'clock. Virtually no contact marks. Unusual mahogany color with light golden undertones. Diagnostic obverse die crack from obverse rim just to the right of the Y in LIBERTY through Liberty's eye and into her hair. Overall quite attractive and very close to mint state. Certainly worth a close examination by Large Cent specialists. EX: Kreisberg May 12, 1961, privately.

1038 **1798**, rim break left of L of LIBERTY, S-171, **VF-15**. Moderately high L, heavy break at left of L along border. Even dark brown color, thin scratch on bust, few contact marks, couple of scratches on reverse probably from attempted cleaning. An R-5 with condition census to VF-25. EX: Oscar R. Tompkins; Thos. P. Warfield; Associated Coin Co. Oct. 1955, Lot 279; C. Douglas Smith; Edward H. Schwartz; A. Kosoff Oct 11, 1961 Lot 197.

1039 **1798**, low 9, die cut on A, S-184, **Choice VF-30**. Problem-free coin, slightly weak at top in even medium brown with few highlights. Quite attractive.

1040 **1798**, arc crack, small 8, S-187, **VF-20**. Originally graded as VF-30, and almost that but few too many obverse contact marks, couple rim dings. Moderately advanced die breaks.

1041 **1800**, overdate over 1798, missing curl, S-190, **VF-20**. One of a number of overdate types, this is an R-5, with the condition census given down to VF-20. This may barely make census as a tie. EX: R. Gallo, Oct. 1960; A. Kosoff, privately.

1042 **1800**, overdate over 179-, wide, S-196, **VG-8/Fine-12**. In dark brown with plain honest wear. EX: Edward H. Schwartz; A. Kosoff Oct. 1961, Lot 228

1043 **1800**, wide date, long fraction bar, S-204, **Fine-12**. Impressed denticles through BER and TY. Long fraction bar, ME touch, lumps at top of E and R, and trace of lump at top left of M. ONE CENT weak. Even medium brown. A high R-4. EX: Willard C. Blaisdell; Edward H. Schwartz; A. Kosoff Oct. 1961, Lot 236; R. E. Naftzger, Jr.; A. Kosoff, privately.

1044 **1800**, widest date, S-209, **Fine-12**. Quoting Kosoff's description: "Corrosion upper left quarter of reverse, reducing an otherwise 25 coin to F-15." Obverse has traces of corrosion on rim, and odd highlight on peak of bust. EX: W. C. Blaisdell; Edward H. Schwartz; Kosoff Oct. 1961, Lot 241.

LARGE CENTS

- 1045 **1801**, 4 wavy lines obverse, S-213, **EF-40**. Die always occurs with the wavy lines in the obverse field, sharply struck. Even dark brown-black color with some mild reverse corrosion at left. About same as Naftzger Lot 527, making this borderline condition census. *EX: W. E. Johnson, Nov. 1959; probably A. Kosoff, privately.*

- 1049 **1802**, 1 touches hair, incused denticles to right of date, S-225, **EF-40**. Obverse shows little wear, not deeply struck with rim break below 02 of 1802. Incused denticles along edge from 4 to 6 o'clock. Reverse has several cracks as reported. Cut at NI of UNITED. Pleasant even medium brown, minimal contact marks. Handsome coin, no previous pedigree.

- 1046 **1801**, fraction 1/000, S-220, **EF-40**. The rarest collectible error reverse. Heavy obverse breaks below first 1 and 01 with break in field. Advanced reverse breaks above AM. Although only an R-4, condition census starts at VF-20. This coin probably ties as fifth best with revised census and accounting for the superb Naftzger coin. *EX: Imperial Coin Co. (Ben Stack) 1956.*

- 1050 **1802**, crack from B across hair, ear and bust, NC-1, **Fine-12**. This piece, formerly a non-collectible has about a dozen examples known in F-12 or better. A borderline R-6 just missing census. This specimen, ex. Dorothy Paschal has the sharpness of VF-20, but a granular surface and probably once cleaned. Called condition census by Kosoff, but we feel the granularity may move it out of that plateau. Reverse much nicer than obverse with crack through top of AMER. A red-brown slightly mottled color. *EX: Albert Collins; Ray Chatham; Albert Collins; Dorothy Paschal; Edward H. Schwartz; A. Kosoff Oct. 1961, Lot 262 illustrated.*

- 1047 **1801**, the corrected fraction, S-221, **VF-20** with strong claims to higher grade. Just a plain nice coin, no defects but some good honest wear. Even medium brown color, reverse not as well struck as obverse. When Sheldon printed the lowest census piece was VF-25, today it's a AU-50. *EX: Raymond Gallo; A. Kosoff Oct. 11, 1961, Lot 252.*

- 1051 **1802**, fraction 1/000 (reverse of 1801), S-228, **EF-40**. A most attractive coin, well struck with immaculate surfaces. Little soft strike at lower area of reverse, with just beginning of break from border to D. A very attractive light brown with some minor highlights. *EX: Kenneth Rendell, about 1958.*

- 1048 **1801**, blunt 1, bar too far left, S-222, **VF-30**. Obverse has rim break over B of LIBERTY, reverse soft struck as usual, right 0 of 1/100 entirely out from fraction bar. Even medium brown color. *EX: Henderson (Sheraton Coin Co.); Adm. W. S. Bitler, 1960; A. Kosoff, privately.*

- 1052 **1802**, 8 low and leaning right, S-229, **VF-20**. Although probably a VF-30 in wear, the piece is marred by numerous edge dings on both obverse and reverse detracting from overall appearance. Has typical diagnostic die cracks, and a low R-4 with only two mint examples known. Medium brown with steel gray background shading. *EX: Abner Kreisberg, June 1963, Lot 204.*

WHAT TO 8ID ON

As you read through the catalog for the first time, record the numbers of all the lots you are interested in on a worksheet. If you are interested in specific types of coins, be sure to check the catalog index.

- 1053 **1802**, 1 distant from curl, joined ME, S-230, **VF-35**. Barely misses EF-40, called this earlier, but an VF-35 safely. The ONE is high in the wreath, the C of CENT is low, N of UNITED imperfect at right top. Even dark brown color, nice surfaces with minimal contact marks. EX: A. Kosoff Apr. 1956, Lot 82; Edward H. Schwartz; A. Kosoff Oct. 1961, Lot 268; R. E. Naftzger, Jr.; A. Kosoff, privately.

FOURTH FINEST KNOWN SPECIMEN 1802 S-238

- 1054 **1802**, widest date, LIBERTY injured, S-238, **VF-30**. Has strong incuse denticles through LIBERTY obscuring the die break. Reverse has delicate cracks and a cut in leaves above O of ONE. A rare coin, rated a high R-4. Nice even chocolate brown with good surfaces. EX: Virgil Brand; Emanuel Taylor Oct. 1960; A. Kosoff, privately.
- 1055 **1802**, usually with obverse die crack, S-240, **VG-8**. This piece, which is a high R-4 has no trace of the distinctive obverse die break. Has regular reverse breaks. Good even wear, medium brown color, but weakly struck top of obverse. Only one rim ding. EX: Walter Breen; Thos. P. Warfield; Associated Coin Auction Co. Oct 1955, Lot 347; Edward H. Schwartz; A. Kosoff Oct. 1961, Lot 284; Lester Merkin (fixed price) June, 1971 at \$50.

- 1056 **1803**, stemless wreath, double fraction bar, S-243, **EF-40**. Purchased as an EF-45, has a few too many contact marks for this grade. Although only a R-3 coin, worthy of a premium as a major variety, undoubtedly struck before many 1802 pieces. An even medium brown color, and just misses the census. EX: Dr. George P. French; B. Max Mehl F.P.L.(1929) Lot 302; T. James Clarke, 1954; R. E. Naftzger, Jr.; A. Kosoff, privately.

- 1057 **1803**, the mumps obverse, S-247, **AU-50**. Nice, sharply struck coin, mumps below jaw quite visible with virtually contact free fields. Has unusual mottled olive, red and brown color as described by Kosoff. Rated as R-3 with only one mint state reported. EX: R. E. Naftzger, Jr.; A. Kosoff Oct. 1961, Lot 293.

- 1058 **1803**, the farthest 1 and 3, S-251, **AU-50**. Slightly demoted from Kosoff's AU-55 description, has a few too many contact marks, especially on the face. Obverse has swelling under the chin, and more heavy swells under the lowest curl. Well struck with medium brown color with lighter highlights. One of the best known. EX: Dr. James O. Sloss; A. Kosoff Oct 21, 1959, Lot 84.

SEE COLOR PLATE

- 1059 **1803**, 3 touches drapery, period after 1/100, S-253, **AU-50** but there is a very strong case for AU-55. An outstanding specimen. Taylor is quoted as stating ex. NNC Downing Lot 1945, and NNC Landau Lot 121 — but this piece is not the fully Uncirculated one described there which has two minor spots on the obverse, missing on this coin. Attractive olive, brown and red color, much red on reverse. One of the top dozen or so known. EX: R. E. Naftzger, Jr.; A. Kosoff Oct. 1961, Lot 302, illustrated.

- 1060 **1803**, wide date, 3 touches drapery, S-254, **MS-63 Select Uncirculated**. A couple of contact marks remove it from the full MS-65 grade. Has minor cut in left field which serves as a hallmark. A full MS-65 piece in the Naftzger Collection brought \$2,900 in 1973. EX: "Anderson Dupont"; Stack's Sept. 1954 Lot 444; C. Douglas Smith; Emanuel Taylor Oct. 1960; A. Kosoff, privately

- 1061 **1803**, 03 close, very wide date, S-255, **Choice AU-55**. Purchased as an MS-60, must be called at best an AU-55. Problem-free with medium brown-gray uniform color. EX: Henry C. Hines; O. B. Windau; R. E. Naftzger, Jr.; A. Kosoff, privately.

- 1062 **1803**, close date, large fraction, S-257, sharp **VF-30**, toss away from a VF-35. Light wear, no problems. Even steel-brown color. EX: Abner Kreisberg June 17, 1963 Lot 218.

SEE COLOR PLATE

- 1063 **1803**, close date, light arc crack on obverse, S-258, **MS-65 Choice Brilliant Uncirculated**. A choice specimen first auctioned in the 1962 NNC sale, Ford described as: "Rich walnut and faded mint red, the reverse with a lovely golden-green opalescence. Well centered with deep serrated borders, the surfaces flawless throughout." A gem piece, probably just off condition census. EX: Fred Baldwin (London); Netherlands Coin Co. 56th Sale, June 27-8, 1962, Lot 512 at \$260, illustrated; Richard Picker; R. E. Naftzger, Jr.; A. Kosoff, privately.

TIED FOR FOURTH FINEST 1803 S-259

- 1064 **1803**, the ghost 3 obverse, S-259, **EF-40**. Has large fraction and short bar. The coins overall appearance as seen in the photograph is of a higher grade, but has microscopic roughness on the head prompting Kosoff to call it EF-40. Medium brown with some reverse highlights. Probably tied for fourth finest known with two other 40's. EX: Raymond P. Gallo; A. Kosoff Oct. 1961 Lot 314 with illustration.

SEE COLOR PLATE

- 1065 **1803**, close date, 3 near hair and curl, S-260, **MS-60 Uncirculated**. A most attractive light brown with a pedigree back to 1929 from Dr. French, and thus it is undoubtedly at the bottom of the condition census. Nice attractive surfaces. EX: Dr. George P. French; B. Max Mehl F.P.L. (1929) Lot 329; Dr. James O. Sloss; A. Kosoff Oct. 1959 Lot 90; Emanuel Taylor; A. Kosoff, privately.

- 1066 **1803**, divided date, five berry reverse, S-262, **VG-8**. Listed as an R-5, but almost R-6 as only 18 known back in 1958, but a few more have been found in recent years. Dark brown-steel color. EX: Admiral W. S. Bitler, 1960; A. Kosoff, privately.

- 1067 **1803**, large date, large fraction, S-265, **Fine-15**. When Kosoff described it 20 years ago he called it F-18, but F-15 is fair grade. Medium steel-brown color, one obvious scratch on reverse. EX: David O. Hughes, privately; Lee G. Lahrman; A. Kosoff Feb. 1963 Lot 251.

AVOID ERRORS

Check your bid sheet carefully!

- 1068 **1804**, broken obverse and reverse dies, S-266, **Fine-12**. A bit conservative on the grade, as almost VF-20, but our guess is obverse was once lightly buffed and recolored. Reverse has two flan defects at 6 and 11 o'clock obliterating letters. Advanced die breaks. An attractive medium brown that must be assumed to be artificial due to work on obverse. No previous pedigree, but could have been ex. Kenneth Rendell

SEE COLOR PLATE

- 1069 **1805**, the blunt 1, S-267, in **Choice AU-55**. Kosoff describes as: "A delightful coin, original red toning to light and medium browns. Because of two light scratches on the bust, which require a glass, we place this exciting coin at AU-55, otherwise the coin is fully mint state." Still just misses condition census. EX: Hollinbeck Coin Co. (Paul Kagit), privately; R. E. Naftzger, Jr.; A. Kosoff Oct. 1961 Lot 330; R. E. Naftzger, Jr.; A. Kosoff, privately.

- 1070 **1806**, S-270, **EF-40**. Only variety of the year, in quite sharp strike. Attractive steel brown-gray with lighter highlights. Virtually no contact marks. EX: A. Kosoff, privately.

TIED FOR THIRD FINEST 1807 S-271

SEE COLOR PLATE

- 1071 **1807**, the comet variety, S-271, **MS-60 Uncirculated**. Probably a conservative grade as absolutely sharp, no contact marks, with comet fully developed. Lovely dark chocolate with some reds in protected areas. Sharp rims, especially on reverse. Worthy of close examination. Probably the third finest known. EX: John P. Lyman; S. H. Chapman Nov. 1913 Lot 430; Oscar J. Pearl; Numismatic Gallery F.P.L., 1944, Lot 211; 1946 A.N.A. Sale Lot 1447; R. E. Naftzger, Jr.; A. Kosoff, privately.

- 1072 **1807**, large 7 over 6, S-273, **VF-20**. Evenly worn, no problems. Medium steel-brown color. EX: Emanuel Taylor Oct. 1960; A. Kosoff, privately.

TIED FOR SIXTH FINEST KNOWN 1807 S-274

- 1073 **1807**, perfect die, mound at STA, S-274, **VF-35**. A rare combination, called high R-4, almost R-5. Purchased as a VF-35 and hard to quarrel with this grade. Uniform chocolate-steel color, defect-free, except for couple minor marks on the neck. Probably tied for sixth best known in condition census. EX: Imperial Coin Co. (Ben Stack) 1956.

- 1074 **1807**, perfect die, large fraction, S-275, **VF-30**. Spot at E of LIBERTY, couple minor reverse marks. A most attractive steel-brown glossy coin, minimal contact marks. Rated an R-4. EX: A. Kosoff, privately.

CLASSIC HEAD — 1808-1814

- 1075 **1808**, front hairband curved, S-277, **EF-40**. The "twelve" star type, although on this example the often missing star is there, only weakly struck. Number of contact points, but overall attractive. Medium chocolate color, some darker highlights. EX: M. H. Bolender.

LARGE CENTS

1076 **1808**, front hairband straight, S-278, **Fine-12**. Honest wear, scarcest die of the year. Steel-brown in color. EX: Otto Steinberger; Edward H. Schwartz; A. Kosoff Oct. 1961, Lot 352.

1077 **1810**, overdate 08 or 09, S-281, **VF-20**. Minor scratch on head. Reverse weak at rim from 9 to 11 o'clock. Uniform steel-brown. EX: Imperial Coin Co. (Ben Stack) 1956.

1078 **1810**, T low and left, S-284, **AU-50**. The rarest type of the year, low 8 and purchased from Beebe's 1955 ANA sale as an EF-40; a gross understatement. Simply a super coin with medium brown color with underlying red highlights. Typically off-center to the right as on most. EX: Beebe's ANA Sale, Aug. 24, 1955, Lot 43.

1079 **1811**, perfect date, S-287, **VF-20**. Bought as a VF-25, and would have been a good mid grade for the piece. Minor nicks, even steel-brown color. EX: J. V. McDermott, circa 1956.

1080 **1812**, small date, no dash under E, S-290, **Choice EF-45**. Just the slightest rub on the high points of the hair. Although called EF-40 in 1955, it was a gross understatement. Few minor contact marks. Even dark chocolate brown, some highlighting. EX: Beebe's ANA Sale, Aug. 24, 1955, Lot 47.

1081 **1813**, distant star type, S-292, **AU-50**. Purchased in 1956 as Uncirculated, but this is overly optimistic. We feel AU-50 is a fair grade, few minor contact marks and off-center to lower right. Even brown-steel color and attractive. EX: S. J. Kabealo Sale, Feb. 1956.

1082 **1814**, crosslet 4, S-294, **Choice EF-45**. A sharp strike, well centered but fields are dull as typical on this coin. Even steel-brown with lighter highlights. EX: L. S. Werner, circa 1960.

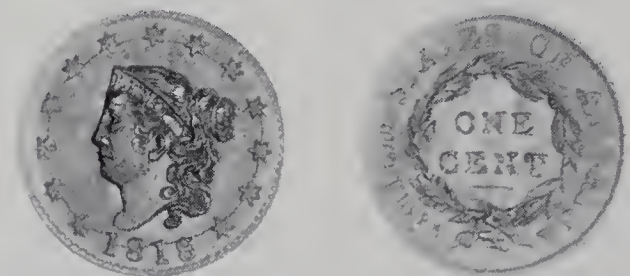

MATRON HEAD — 1816-1835

1083 **1816**, wide date, low E in ONE, N-4 (R-3), **Choice AU-55**. Considerable red on obverse, olive red reverse. A couple of minor reverse carbon spots. Compares quite closely to Bowers & Ruddy Harte III Sale, 1983, Lot 539. EX: Emanuel Taylor; A. Kosoff Oct. 11, 1961 Lot 392 at \$150.

1084 **1817**, Randall find piece, 1 away from bust, N-14, **MS-60 Uncirculated**. Reverse has high A in STATES, leaf to center of F of OF. Probably comparable to Helfenstein MS-63. Has much mint bloom,, medium brown with red tones on obverse and reverse. EX: Emanuel Taylor; A. Kosoff Oct 11, 1961, Lot 424; R. E. Naftzger, Jr.; A. Kosoff, privately.

1085 **1818**, stars interconnected, N-10, **MS-60 Uncirculated**. Undoubtedly a Randall piece, obverse medium brown with much underlying red. Few too many contacts for a MS-63, reverse iridescent gold and olive. Handsome.

10% — 10%

Kagin's Numismatic Auctions has instituted a 10% consignment/buyers commission structure. This centuries' old European system is becoming widely accepted by most of the major numismatic firms in the United States.

1086 **1819**, overdate over 18, N-1, **MS-63 Select Uncirculated**. A beautiful specimen in medium brown and olive, worthy of MS-63 since virtually mark-free. *EX: Dr. James O. Sloss; A. Kosoff Oct. 21, 1959, Lot 135.*

1087 **1819**, large date, N-2, **AU-50**. Delicate cracks through most of the stars. Even light red-brown, some granular areas on reverse near rim.

RARE PROOFLIKE 1819 N-8a

1088 **1819**, small date, N-8a, **MS-63 Select Uncirculated**. Dies are sharp, with UNI too high, E in ONE is low, top of TE in UNITED joined, AT in STATES joined. (The N-8b has these last two lines separated by die reengraving.) The coin is reported in Newcomb, Peter Mougey Sale (2 pieces) to S. H. Chapman, and Dr. French (1929) Lot 415. This piece is undoubtedly the Clarke duplicate. Almost full sharp edges, center points of all but 2 stars are defined. With brilliant shiny field and every detail is needle sharp in hair and on each leaf. Color is a strict olive, with a few darker highlights. Worth a run-away bid. *EX: Dr. James O. Sloss; R. E. Naftzger, Jr.; A. Kosoff Feb. 1, 1963, Lot 306.*

1089 **1819**, small date, N-8b, **MS-60 Uncirculated**. A retouched die of the previous variety, N-8a, but Ford feels, and we agree with him that it deserves a separate number. Classified in Lahrman Sale as N-10, uncommon at \$32.50. Golden olive and light tan. Note star centers are almost completely lacking — but show nicely on the preceding prooflike. *EX: Lee G. Lahrman; A. Kosoff Sale, Feb. 1, 1963, Lot 307.*

1090 **1820**, small overdate 1820 over 19, N-2, **VF-30**. Curled 2 over 1, through the center and the scarcest of the three overdate types. Even steel-brown color.

1091 **1820**, large date, plain 2, N-13, **MS-63 Select Uncirculated**. A typical Randall hoard coin, with crack connecting all stars, L of LIBERTY double cut. Little weakly struck at lower edge of reverse, one spot over coronet. Mostly full red, partly shading to deeper tones. A nice coin.

TIED FOR SECOND FINEST 1820 N-14

1092 **1820**, large date, plain 2 with elaborate curl, N-14, **MS-60 Uncirculated**. An exceptionally rare die variety given an R-6 by Newcomb and described by Kosoff as: "Extremely rare and especially in this MS-60 condition. Mr. Taylor stated that he knows of only one other Uncirculated specimen, the MS-70 (now a more realistic MS-65) ex. Downing." This coin realized \$350 in 1961, an unheard of price. Wright in his revision of Newcomb reflects this piece as second best, adding to the pedigree also ex. F.C.C. Boyd. Glowing light red-brown color with reverse highlights. Lightness at highest details, flawless surfaces and probably deserving of an MS-63 connotation. Certainly one of the showpieces of this collection — especially since only two mint specimens of this variety are known. *EX: F.C.C. Boyd; NNC No. 50, Dec. 1957 Lot 1414 — Emanuel Taylor; A. Kosoff, October 1961 Lot 487.*

1093 **1820**, small date, curled 2 and curled tail to R, N-15, **MS-63 Select Brilliant Uncirculated**. A scarce type called R-2 plus by Wright, rather than Newcomb's R-3. In light red-brown golden tones, with red highlights especially on reverse. Die weakening over AMER. *EX: Emanuel Taylor; A. Kosoff Oct. 11, 1961, Lot 489, illustrated, realizing \$110.*

LARGE CENTS

1094 **1821**, close date, large T in LIBERTY, N-1, **Choice AU-55**. Some die rust, hint of rub on obverse high spots, deep toning. A rare date in handsome uniform dark brown-steel color.

TIED FOR FOURTH FINEST 1822 N-3

1095 **1822**, divided date, 1 8 22, early die state, no rust, N-3, **MS-60 Uncirculated**. Kosoff states: "Ex Dr. French, T. James Clarke. MS-60. A splendid coin which Dr. French called a 'proof'. Rare so choice. \$500.00." It sold for handsome sum of \$390. Glossy light brown with red high lights, all stars struck well, nick in field in front of nose. Merkin in Helfenstein Sale estimated only four mint examples known, but Wright reports nine. This piece is among the best. EX: Dr. George P. French; B. Max Mehl F.P.L. 1929 Lot 433; T. James Clarke; R. E. Naftzger, Jr.; A. Kosoff October 1961 Lot 500.

1096 **1822**, wide even date, N-5, **MS-60 Uncirculated**. Date well spread, equidistant from stars, rust spots on bust as on most. Base of I below L and B of LIBERTY. Merkin estimated only four or five mint examples, but Wright now states 15 or 20. Medium brown color with lighter highlights, stars not fully struck up.

1097 **1823**, over 22, N-1, **VF-25**. Probably rates a full VF-30 today, even wear, but a few obverse contact marks. Medium brown with few lighter highlights. EX: William F. Dunham; B. Max Mehl June 1941 Lot 1359; Kreisberg Sale, June 17, 1963, Lot 281 at \$140.

1098 **1823**, unofficial restrike from broken dies, **MS-65 Choice Uncirculated**. An advanced die state of this non-mint restrike made from an 1823 obverse and an 1813 reverse about 1860, with heavy rust marks on obverse and reverse. Prooflike, glossy olive-brown toning and about as nice as can be found of this odd appearing creation.

1099 **1824**, close date, 82 closely spaced, N-2, **MS-65 Choice Uncirculated**. Virtually immaculate surfaces, even red-brown color with some highlighting on the reverse. EX: R. E. Naftzger, Jr.; A. Kosoff Nov. 1960 at \$72, privately.

1100 **1824**, close date type as preceding, N-2, **MS-60 Uncirculated**. Not quite as well struck as preceding, surfaces immaculate. Attractive glossy medium, few reverse highlights. EX: Beebe's ANA Sale, Aug. 1955 Lot 72.

SEE COLOR PLATE

1101 **1824**, wide date, widely spaced, N-4, **MS-65 Choice Brilliant Uncirculated**. TY of LIBERTY almost touches at top, other letters well spaced. Kosoff wrote as follows: "Splendid MS60-65, ex Beckwith, French, Sheldon, Clark (sic)." However, this is not that coin. In the Schwartz group sold for \$205 on \$250 estimate. Merkin estimated only four mint known, but Wright estimates four MS-65's known and about a dozen 60's. Attractive medium brown glossy surfaces, no problems, with some medium red mottling. Almost unimprovable. EX: R. E. Naftzger, Jr.; A. Kosoff Oct. 11, 1961, Lot 534.

- 1103 **1825**, small A's, star over, 25 is low, N-8, **MS-60 Uncirculated**. Has inner line at left border. Previously has been called rare, but Wright cites six MS-65's, this just missing them. This specimen has impressive pedigree, has one small line in the obverse field. Nice medium brown, glossy with some reddish highlights. In Schwartz, given an impressive pedigree which was incorrect. EX: R. E. Naftzger, Jr.; A. Kosoff Oct. 11, 1961, Lot 544, illustrated.

- 1102 **1825**, small A's, star right, L of LIBERTY slightly low, N-6, **Choice AU-55**. Has claim to higher grade but for trace of obverse rub. Softly glowing red-brown obverse, reverse with attractive silvery highlights. EX: A. Kreisberg; M. F. Schulman May 1966, Lot 884; A. Kreisberg Oct. 1966, Lot 2539; A. Kreisberg Sept. 1967, Lot 447.

BEAUTIFUL PROOFLIKE 1825 N-9

- 1104 **1825**, large A's, star right, N-9, **Choice AU-55**. The bases of IB and ER touch in LIBERTY, line near border at left, recut T in CENT. Extensively cataloged as Lot 859 in the NNC Ryder Sale of Sept. 1953. Described as "A superb 'Semi-Proof'. Splendidly centered and struck, the stars full and bold. Glittering golden brown and olive, with traces of iridescent light blue, and a reverse dash of orange. This magnificent example is among the finest we have seen, and was undoubtedly struck immediately after the few proof impressions were taken from these dies. Ex. S. H. Chapman's Sargent Collection, June 20, 1913 where this was Lot 568 at a then fabulous price of \$49.00. Excessively rare condition." Note in our priced copy of the Sargent Sale, the price is given as \$19.00.

However, Breen specifically recognizes the Sargent-Ryder piece as a Proof, and tabulates it as coin number 4, on page 45 of his book on Proof coinage. Breen traces five pieces, with some others by rumor, and concludes six to eight are known. Wright also states six to eight known Proofs, but for some reason gives no pedigrees on known copies. EX: S. H. Chapman's Sargent Collection, June 20, 1913, Lot 568; Hillyer Ryder; NNC Sale, Sept. 1953, Lot 859; R. Gallo; A. Kosoff, privately.

ANOTHER PROOFLIKE 1825 N-9

- 1105 **1825**, large A's, star right, N-9, **MS-63 Select Uncirculated**. A virtual twin to the preceding lot. In fact both lots are twins in strike, color, luster, even down to the one or two minor handling marks on each. This piece, probably never seen by Breen, has a pedigree back to 1890. Most recently sold in the Schwartz Sale from Taylor where sold for \$290. EX: "Anderson Dupont" Stack's Sept. 1954 Lot 634; E. Taylor; A. Kosoff Oct. 1961 Lot 546.

FINEST KNOWN 1826 N-1

- 1106 **1826**, state II die break, dash after 6, N-1, **MS-65 Choice Uncirculated**. This specimen is specifically cited by Wright revision of Newcomb as the finest known at MS-65. Originally from F.C.C. Boyd as part of the World's Greatest Collection. Nice medium brown, with much deep and light red under-tonings. There is a minor contact mark in the right field. EX: R. E. Naftzger, Jr.; Kosoff Oct. 11, 1961 Lot 550, illustrated.
- 1107 **1826**, large S's, break at 6th star, N-5, **AU-50**. Lovely lustrous medium brown with lustrous pearly highlights, combining with well struck and well centered devices to make an unusually appealing piece. EX: Raymond Gallo; A. Kosoff, privately.

- 1108 **1826**, small S's, N-7, **MS-65 Choice Uncirculated**. Beautiful light red toning to medium brown. Obvious wreath clash marks on the obverse in front of the face — one of the few times that we have seen an attractive clash. Wright records five other MS-65's, but was apparently not aware of this piece from the Colvin Sale. Undoubtedly tied for best known. EX: Allan P. Colvin; French's Oct. 1962 Lot 208; R. E. Naftzger, Jr.; A. Kosoff, privately.

FINEST KNOWN 1826 OVER 25 N-8

- 1109 **1826**, the overdate variety, small S's, star left, N-8, **MS-65 Choice Uncirculated**. Not always recognized as an overdate, recent authors have acknowledged it as such. The 182 is widely spaced, 6 close to 2. Kosoff called this piece a tie for finest known (the Wright MS-65). Kosoff described it as: "a lovely light olive with mint luster MS-60, ex. Proskey, Hines, Starr." Suggested \$300, and sold for \$265. *EX: David Proskey; Henry Hines; Dr. William H. Sheldon; Floyd T. Starr 1949 ANA Sale Lot 1616; R. E. Naftzger, Jr.; A. Kosoff October 1961, Lot 561.*

- 1110 **1827**, point of star over coronet, N-3, **Choice AU-55**. LIBER-Y recut, die break on neck. a common type but only relatively few known in mint condition. *EX: Emanuel Taylor; A. Kosoff Oct. 11, 1961, Lot 569.*

- 1111 **1827**, wide date, star right, N-11, **MS-63 Select Uncirculated**. Deflected from MS-65 by minor contact on obverse field. Pinpoint strike — stars are perfect, proof surfaces and this might account for the so-called N-11 proofs in Mougey and Miller mentioned by Breen. Medium brown with much red highlighting. *EX: Emanuel Taylor; A. Kosoff Oct. 11, 1961, Lot 582, illustrated.*

- 1112 **1828**, large date, star over coronet, N-3, **MS-60 Uncirculated**. Tops of 82 almost touch, steel deep brown glossy surfaces. Slight roughness in fields from rusted dies as mentioned by Newcomb. Faint obverse crack from brow visible. Quite rare in Uncirculated — Wright only cites six MS-60's, these not counted.

TIED FOR SECOND FINEST 1828 N-5

- 1113 **1828**, large date, star over coronet, N-5, **MS-60 Uncirculated**. From perfect dies, and very likely the second best known as very rare in high grade according to Wright. Glossy light brown with red tones quite apparent. No visible contact marks. As with the following lot, no pedigree is available.

TOP CONDITION
1828 SMALL DATE N-10

SEE COLOR PLATE

- 1114 **1828**, small date, N-10, **MS-65 Choice Uncirculated**. Near perfect lustrous piece, well centered with red and light brown toning. Virtually immaculate surfaces. Acknowledged by Wright as tied with two others as best known. Superior to recent Bowers & Ruddy Harte III, 1983, Lot 585, the best offered in recent years. *EX: Emanuel Taylor; A. Kosoff Oct. 11, 1961, Lot 596, illustrated.*

- 1115 Pair of large cents: (1) **1829**, large letters, N-8, **AU-50**, mint coloring still intact; (2) **1829**, small letters, N-5, **VG-8**, some obverse scrapes. *EX: Otto Steinberger; Edward H. Schwartz; A. Kosoff October 1961, Lot 607. (Total: 2 pieces)*

- 1116 **1830**, large letters, N-2, **MS-63 Select Uncirculated**. Continuous crack through date and inside all stars, and break at lobe of ear. Medium brown glossy with red highlights. Square edges.

- 1117 **1830**, large letters, complete inner line, N-4, **MS-63 Select Uncirculated**. Obverse and reverse cracks, light brown with lighter and darker highlights. EX: Mehl Collection (dispersed about 1943); T. J. Clarke; R. E. Naftzger, Jr.; A. Kosoff, privately.

- 1118 **1831**, small letters, N-3, **MS-60 Uncirculated**. The O in ONE slants left, double line at top of E in CENT. Light olive and brown, reverse darker. EX: B. Max Mehl; Milton Holmes; Stack's Oct. 10, 1960 Lot 1547; R. E. Naftzger, Jr.; A. Kosoff, privately.

- 1119 **1831**, large letters, N-8, **MS-60 Uncirculated**. Base of last A near stem. Point of star slightly right of coronet. Bottom of L below I of LIBERTY. Although Lester Merkin thought only four uncirculated in 1964, Wright notes four MS-65's and nine or 10 MS-60's. This tied for fifth finest. EX: Henry C. Hines; Raymond Gallo.

- 1120 **1831**, large letters, N-9, **MS-63 Select Uncirculated**. Star right, large R in LIBERTY with straight tail. A R-3 coin, with good surfaces and color making it a MS-63 and a virtual tie with Bowers & Ruddy Harte III (1983) Lot 604. Steel brown and red toning, lighter in protected areas, reverse the same. No contact marks, E of CENT weak. Tied for second or third best known.

PHOTOGRAPHY

All photographs are of the actual lots being sold. They illustrate, as realistically as possible, detail and the degree of wear.

- 1121 **1831**, small letters, no rim break, N-11, **MS-63 Select Uncirculated**. The 18 is widely spaced, base of T in LIBERTY rests on the hair. Pedigree shown as ex. Sloss, Sept. 1958, as MS-70 at \$240, undoubtedly a duplicate through Kosoff. Has red and light brown toning. Notable die rust on face as mentioned by Wright; among a handful of top condition survivors. EX: Dr. J. O. Sloss, Sept. 1958 (probably a duplicate); R. E. Naftzger, Jr.; A. Kosoff, privately.

- 1122 A pair of **1832** cents: (1) Small letters, N-1½, **VF-30**, with a slight double profile at nose and lips, EX: Otto Steinberger; Edward H. Schwartz; A. Kosoff October 1961 Lot 656; and (2) Large letters, N-3, **Choice AU-55**, nice light brown with some red reverse highlights. (Total: 2 pieces)

- 1123 **1833**, star right, both E's in ONE CENT incomplete, N-3, **MS-63 Select Uncirculated**. Obverse denticles almost missing, reverse sharp. Steel blue color with traces of red. Just misses condition census. EX: Raymond Gallo; A. Kosoff October 1961 Lot 668.

- 1124 **1833**, the horned 8 variety, N-5, **MS-63 Select Uncirculated**. Only a few contact marks keep from higher grade. Many fine obverse die breaks. The O of ONE slants left. Olive and red color, slight toning. EX: Raymond Gallo; A. Kosoff, privately.

- 1125 **1834**, small date, small 8, large stars, small letters, N-1, **MS-60 Uncirculated**. Obverse cracked through most stars, crack from A through ribbon. Just about identical to Bowers & Ruddy Harte III Sale, 1983, Lot 609. Nice color, red and light brown, some lighter highlights. EX: Beebe's ANA Sale, Aug. 1955 Lot 87.

- 1126 **1834**, very strong double profile, N-1½, **Choice AU-55**. Few contact marks, much red and light brown. EX: Kabealo Sale, Jan. 25, 1947; R. E. Naftzger, Jr.; A. Kosoff, privately.

TIED FOR SECOND BEST KNOWN 1834 N-4

- 1127 **1834**, large 8, small stars and letters, N-4, **MS-65 Choice Uncirculated**. An absolute gem, no pedigree, fully equivalent to Pearl and Boyd-Helfenstein piece sold at Bowers & Ruddy Harte III Sale, Lot 610. Safe to say this is tied for second best known. Medium red and light brown, with some highlights on reverse. On this copy the E of CENT is fully struck. A truly exceptional coin.

- 1128 Pair of cents: (1) **1834**, large date, small stars, N-4½, **AU-50**. Strong double profile, dark steel brown glossy surfaces, reverse roughness around UNITED STATES caused by die rusting, EX: Otto Steinberger; Edward H. Schwartz; A. Kosoff October 1961 Lot 688; and (2) **1835**, large date, large stars, N-1½, **Fine-12**, double profile. EX: Otto Steinberger; Edward H. Schwartz; A. Kosoff October 1961 Lot 693. (Total: 2 pieces)

NEWLY DISCOVERED 1835 N-13 PROBABLY THIRD BEST KNOWN

- 1129 **1835**, small date and stars, type of '34, N-13, **Choice AU-55**. This well struck piece is arguably closer to MS-60; this unreported specimen is clearly the third best copy known. Only two MS-60's reported, next best is an AU-50. Early die state, partial crack from star 4 to under star 12. Lovely smooth glossy fields, medium red-brown color and a real show piece. Perhaps the most important discovery coin in the collection. A R-4 and tough! No pedigree information available on this coin, but may have been ex. Kosoff.

- 1130 **1835**, type of '36, N-14, **MS-60 Uncirculated**. A light brown and red color, reverse is superb and easily MS-63. The top of C in AMERICA is flat. An attractive piece with no available pedigree data.

- 1131 **1836**, double peak to figure 1, N-1, **MS-60 Uncirculated**. Lots of fine die breaks visible, none proving fatal. Lustrous olive with traces of red on both sides. EX: Dr. James O. Sloss; A. Kosoff October 1959 Lot 189; Emanuel Taylor; A. Kosoff October 1961 Lot 717, illustrated.

- 1132 **1836**, line above I of UNITED, N-3, **MS-60 Uncirculated**. Kosoff called medium brown, MS-60, ex. Phillip G. Strauss. There is a slight obverse edge bruise, not mentioned previously. EX: Phillip G. Strauss; Stack's May 1959 Lot 346; Emanuel Taylor; A. Kosoff October 1961, Lot 720, illustrated.

- 1133 **1837**, plain hair cord, small letters, N-5, **MS-60 Uncirculated**. Die breaks from star 3 to 8. Medium olive brown, reverse slightly mottled. EX: Emanuel Taylor; A. Kosoff October 1961 Lot 736, illustrated.

- 1134 **1837**, plain hair cord, large letters, N-7, **MS-65 Choice Uncirculated**. Struck with weak obverse rims, has dies crack through TATES OF. In Kosoff's envelope, with marked pedigree: "Gaskill at 38 — to NNC Landau to NN 52nd at 27 Lot 149 to E Taylor to TN 10/60." However this is the pedigree for Helfenstein 166. We assume the Helfenstein piece was slightly better and duplicate sold to Kosoff. A lovely iridescent light olive and almost a twin to Helfenstein.

- 1135 **1837**, beaded hair cord, small letters, N-11, **MS-65 Choice Uncirculated**. Line at left side of 1 above base. Using older grading, Taylor called it an MS-70. Near mint red, turning darker in some spots." A most impressive history. EX: Jackman (Chapman); Henry C. Ryder; New Netherlands Coin Co. Sept 1953, Lot 896 (as almost a MS-70), but not this piece. EX: R. E. Naftzger, Jr.; A. Kosoff October 1961 Lot 750.

- 1136 **1837**, plain hair cord, large letters, N-13, **MS-65 Choice Uncirculated**. D below base of E, reverse perimeter cracks. Nice medium red obverse and reverse, called R-4. EX: Raymond Gallo; A. Kosoff, privately.

- 1137 **1838**, date close and evenly spaced, N-2, **MS-65 Choice Uncirculated**. D high above E. Even medium brown-red. EX: Abner Kreisberg Dec. 4, 1961; A. Kosoff, privately.

- 1138 Set of three 1838 N-4's, different die states. (1) **1838**, closely and evenly spaced, 1 more distant, N-4, State I perfect die, **VF-20**; (2) **1838**, State II beginning crack from rim, 9th star to hair coil, N-4, **VF-20**; and (3) **1838**, State IV, advanced cracks, N-4, **MS-65 Choice Uncirculated**. Medium red brown, some reverse red highlights. This piece EX: Raymond Gallo; A. Kosoff Oct. 11, 1961, Lot 772, illustrated. (Total: 3 pieces)

- 1139 **1838**, 38 very widely spaced, N-6, **MS-60 Uncirculated**. Medium red-brown, with red in most protected areas. Would be at least a MS-63 except for spot at N of CENT.

- 1140 **1838**, widely spaced, N-7, **MS-63 Select Uncirculated**. Medium brown with mostly red in protected areas. Has some slight roughness in lower bust area due to die rust. EX: A Connecticut Consignment; Stack's Feb. 1960, Lot 70 at \$20; Emanuel Taylor; A. Kosoff, privately Oct. 1960.

- 1141 **1838**, widely spaced, 38 slightly more apart, N-9, **MS-63 Select Uncirculated**. A choice problem-free cent, in light brown with medium red in protected areas of obverse. Lovely coin, reported as condition census. EX: Henry C. Hines; Dr. W. H. Sheldon; Floyd T. Starr; 1949 ANA Sale, Lot 1732; R. E. Naftzger, Jr.; A. Kosoff, privately.

RARE PROOFLIKE 1838 N-11

SEE COLOR PLATE

- 1142 **1838**, from same master die of Newcomb 9, N-11, **MS-63 Select Uncirculated**. Base of L and E recut. Less space between 38 than in N-9. D of UNITED high, both feet of M recut, as are ERI of AMERICA. Attractive medium red and light brown obverse, fingerprint in left field, undoubtedly artificially colored. Minor nick on jaw. Breen in his book, accounts for 10 different proofs, but this piece is apparently a prooflike early business strike of considerable rarity in its own right. A piece whose importance should not be overlooked. EX: Lee C. Lahrman; A. Kosoff Feb. 1, 1963, Lot 402.

- 1143 **1839**, head of 1838, N-2, **MS-60 Uncirculated**. Two fine lines slanting up from the tail of R. Line under CENT. All letters on the reverse have ragged edge. Even medium glossy brown.

- 1144 **1839**, Booby Head, N-5, **MS-63 Select Uncirculated**. When sold at the ANA sale, called "uncirculated medium brown, choice." We have no reason to quibble. Back of shoulder is bare, a curl replaces line under L of LIBERTY. Nine leaves left, elongated second berry. EX: Beebe's 1955 ANA Sale Lot 98.

- 1145 **1839**, Booby Head, N-7, **MS-63 Select Uncirculated**. Has all the cracks mentioned by Newcomb. Obverse border is flat. Medium brown with red undertones. EX: Emanuel Taylor (paid \$55 in Dec. 1958); R. E. Naftzger, Jr. Oct. 1960; A. Kosoff, privately.

- 1146 **1839**, type of 1840, N-8, **MS-63 Select Uncirculated**. This is the petite head by Christian Gobrecht. Originally called an MS-65, and there is a good case for this. Distinctly superior to the piece sold in Bowers & Ruddy Harte III Sale, as Lot 612. Struck from very sharp, non-worn dies. Glossy medium brown with some red highlights. EX: Charles R. Mathewson Coll. May 1955 at \$50; Emanuel Taylor; A. Kosoff, privately.

- 1147 **1839**, Silly Head, N-9, **MS-63 Select Uncirculated**. Point of best shorter and more pointed. Top of head more rounded than 1838. Crack from top to bottom from between 5th and 6th stars through head and below 13th star. It is a beautiful medium olive throughout with some lighter red highlights, but there are four or five small lighter dots along the upper edge which are distracting. Still quite a lovely coin.

- 1148 **1840**, small date, N-1, **Choice AU-55**. No round hole in ear. This piece is an even medium brown color, a little lighter mottling and lighter highlights. Several faint shallow scratches in front of throat, prevents us from grading higher.

LARGE CENTS

SEE COLOR PLATE

1149 **1840**, large date, N-6, **MS-63 Select Uncirculated**. A striking looking coin with absolutely full original light red obverse, except for trace of fingerprint behind head, and red reverse turning to light brown. Certainly a great coin for a type set!

1150 **1841**, first 1 near border than last 1, N-2, **MS-60 Uncirculated**. No wear and even medium brown but nick on cheek and in left field.

1151 **1842**, large date, N-5, **MS-60 Uncirculated**. Fully uncirculated, with light medium brown and medium reds in protected area. Traces of very minor contact in obverse fields.

MATURE HEAD — 1843-1857

1152 **1843**, obverse and reverse of '42, N-8, **MS-63 Select Uncirculated**. Typical specimen, early die state with all recutting on 1, 8 and 4 readily visible. Some light mint red highlights mostly turning to light brown. Virtually contact-free, but one slight nick on cheek. An important coin.

1153 **1844**, 1844 over 81, N-2, **MS-60 Uncirculated**. Certainly one of the mint's most exotic overdates; the entire 1844 was first punched into the die upside down, then normally as the possibly bewildered engraver tried to correct his error. Glossy medium brown surfaces, just a trace of a couple of contact points on the obverse. EX: Hans Schulman-Abner Kreisberg Sale, Feb. 5, 1960 Lot 930 at \$35; A. Kosoff, privately.

1154 **1844**, N-4, **MS-60 Uncirculated**. Fully uncirculated in medium brown, with mint red showing in protected areas, especially on reverse.

1155 **1845**, 84 slightly apart, N-2, **MS-65 Choice Uncirculated**. Choice red mint uncirculated, obverse mellowing slight towards medium brown. Has wire edges on about 50 percent of over. A classic uncirculated large cent, virtually contact-free. EX: Lester Merkin June 1971 Lot 600.

1156 **1845**, 84 slightly apart, N-2, **MS-63 Select Uncirculated**. Another specimen of the same die, with a most unusual pedigree. Glossy medium brown, with few reverse highlights, almost contact-free. Has about 50 percent obverse wire edge (no proofs are known from this die!). EX: U. S. Coin Co. (Wayte Raymond) Sale No. 3, Feb. 26, 1913 No. 107 (original ink lot slip is enclosed); Lee G. Lahrman; A. Kosoff Feb. 1, 1963 Lot 433.

1157 **1845**, 84 close, N-8, **MS-63 Select Uncirculated**. Glossy medium brown, well struck with few red undertones. Contact-free, but tiny spot in front of first 1.

1158 **1846**, small date, N-7, **MS-60 Uncirculated**. Looks at least a MS-63, with red tones on obverse, and most original light red reverse partly shading to brown. Couple tiny spots on obverse (not carbon) and couple contact marks establish grade. EX: Dr. James O. Sloss; A. Kosoff, privately.

1159 **1846**, small date and broad 1, N-8, **MS-63 Select Uncirculated**. Lustrous olive brown, with two tiny nicks on face. EX: Lee G. Lahrman; A. Kosoff Feb. 2, 1963 Lot 438.

LARGE CENTS

- 1160 **1847**, 84 close to hair, N-8, **MS-60 Uncirculated**. Medium olive brown, but some minor irregularities in obverse field (not corrosion or carbon) prevent higher grade. *EX: Dr. James O. Sloss; A. Kosoff Oct. 21, 1959, Lot 249 at \$40; A. Kosoff, privately.*

- 1161 **1847**, dot of corner of mouth, N-39, **MS-63 Select Uncirculated**. A near full red piece, especially on the obverse where just toning down partially to light olive. Few tiny field contacts. Rarely offered. *EX: Beebe's ANA Sale, 1955 Lot 112.*

1848 GEM PROOF N-19

SEE COLOR PLATE

- 1162 **1848**, fine line crosses the 1, N-19, **Choice Brilliant Proof-65**. A simply superb coin, that has magnificent dark red-olive and blue toning, sharp square edges, and a flawless well centered strike. Has partial wire edges — everything to make it an unblemished specimen. Breen does not mention this specimen, but accounts for 13 others. This may well prove to be one of the earlier listed pieces. *EX: Dr. James O. Sloss; R. E. Naftzger, Jr.; A. Kosoff Feb. 1, 1963, Lot 448 at \$675.*

- 1163 **1848**, fine dash under right arm of T of LIBERTY, N-28, **MS-63 Select Uncirculated**. Mint red toned down partially to olive brown. A few minor obverse marks alone keep from a higher grade. *EX: A. Kosoff, privately.*

- 1164 **1848**, 1 and 4 imbedded in bust and curls, N-35, **MS-65 Choice Uncirculated**. A red cent mostly toned down to medium olive on obverse and reverse. A couple of tiny marks can be seen under 10X glass. A nice one.

- 1165 Pair of cents: (1) **1849**, N-20, **AU-50** medium brown; and (2) **1851** N-23, **Choice AU-55**. A most attractive piece, looks bit broad struck and may have been retoned years ago. (Total: 2 pieces)

- 1166 **1850**, closed 5 just touches curl, N-7, **MS-65 Choice Uncirculated**. Mottled medium mint red mixed with olive and light brown rather attractively, near contact-free. *EX: Lester Merkin June 1971 Lot 608.*

- 1167 **1850**, open 5, reverse rim breaks, N-10, **MS-65 Choice Uncirculated**. Simply beautiful appearing coin tending to a medium red and light brown on both sides and very attractive. Reverse has distinct rim breaks over TE and F A. Upper reverse rim weak probably due to breaks. Glossy surfaces, contact-free. *EX: Dr. George P. French; Charles W. Foster; Thos. P. Warfield, privately; Edward H. Schwartz; A. Kosoff Oct. 11, 1961, Lot 997.*

- 1168 **1850**, closed 5, 1 touches denticle, N-12, **MS-63 Select Uncirculated**. Beautiful glossy coin in olive with medium red highlights, virtually contact-free. A beauty to behold. *EX: A. Kosoff, privately.*

- 1169 **1852**, line below peak of 1, top 5 recut, N-14, **MS-65 Choice Uncirculated**. Virtually full red obverse and reverse, slight toning at high points to olive. Contact-free, couple minor spots, not carbon.

PLEASE NOTE

A 10% buyer's charge will be added to the total amount successful.

1170 **1853**, 1 embedded in bust, line from denticle under 1, N-10, **MS-63 Select Uncirculated**. Attractive pale lustrous red sheen, even and free of blemish with some characteristics of a higher grade. EX: A. Kosoff, privately.

1171 **1853**, fine horizontal line from base of 1 to denticle, N-33, **MS-60 Uncirculated**. Also has lines from left to right adjacent to Y. Nice glossy medium red-brown, but couple spots in left field, not carbon. Almost contact-free.

1172 **1854**, fine lines below the eye, N-7, **MS-65 Choice Uncirculated**. Lovely red mint color toning to olive brown, same on both sides. Rims not sharp, well struck and contact-free. Little die rust at jaw-neck junction. EX: R. E. Naftzger, Jr.; A. Kosoff, privately.

1173 **1854**, 5 touches curl, line from nose to lip, N-22, **MS-60 Uncirculated**. Also no hole in ear and unreported fine line connecting left side of 5. Surfaces are slightly rough on left obverse, rims not sharp and couple of contact marks. Medium olive-brown in color. Couple of spots, not carbon. EX: A. Kosoff, privately.

1174 **1855**, upright 55's, many lines from curls to RT, N-3, **MS-63 Select Uncirculated**. The 1 and 8 distant from bust and curl, right top of 5 near curl. Parts of lower field rough due to die rust, has few contact marks and uneven color. Red and light brown toning mixed. EX: Dr. James O. Sloss; A. Kosoff Oct. 1959, Lot 331.

SEE COLOR PLATE

1175 **1855**, upright 55's, two dots on jaw near ear, N-4, **MS-65 Choice Uncirculated**. Just beautiful coin, with about 95 percent original mint flaming red, just slightest toning to olive at peaks. A couple of minor contact marks, strike good with almost full rims. Note that mark above ON of ONE in field is in die and also occurs on the following lot. EX: Edward H. Schwartz; A. Kosoff Oct. 11, 1961, Lot 334.

1176 **1855**, upright 55's, two dots on jaw near ear, N-4, **MS-63 Select Uncirculated**. Attractive light reddish tan faded from mint color. Almost spotless and well struck. EX: Lester Merkin, June 1971, Lot 613.

PROOFLIKE 1855 N-10

1177 **1855**, slanting 55's, N-10, **MS-63 Select Uncirculated**. This piece, undoubtedly one of the Lahrman specimens is well struck with an even olive color, all star points defined. Perfectly centered, sharp edges, but no wire traces. Breen states, about 100 proofs known, plus prooflike early business strikes, like this piece, identification point being the small dot or defect in the center of the coronet. He cites the two pieces from Lahrman Sale. EX: Lee G. Lahrman; A. Kosoff Feb. 1, 1963.

1178 **1855**, slanting 55's, N-10, **MS-63 Select Uncirculated**. A lovely piece with part of mint red turning to olive, especially on obverse. Well struck, obverse rims soft. Few contacts.

1856 BRILLIANT PROOF-65 N-5

SEE COLOR PLATE

1180 **1856**, italic 5, date distant from bust, N-5, **Choice Proof-65**. Breen estimates a possible 100 survivors. However, few can equal the quality of this specimen. These proofs often have a startling color as mentioned by Breen, this copy has red rim, with the central area in a lovely mixture of purple, olive and red. Just beautiful to look at. Sharp wire edges, hairline-free and a perfect candidate for the advanced type collector.

1181 **1856**, upright 5, N-7, **MS-60 Uncirculated**. The 1 touches the bust, and die crumbling between tops of TE in UNITED. Olive brown with red in protected areas. Few scrapes in field. EX: Dr. James O. Sloss; A. Kosoff Oct. 21, 1959, Lot 346.

1182 **1856**, italic 5, N-14, **MS-63 Select Uncirculated**. Top of 1 close to bust, right top of 5 almost touches curl. Mint red toning to olive, weak struck rims. EX: Lester Merkin, privately, June, 1971 Lot 614.

1183 **1857**, large date, N-1, **MS-63 Select Uncirculated**. A beautifully struck piece with perfect rims and sharp partial wire edge. Deep purple olive, couple minor non-carbon spots. EX: Dr. James O. Sloss; A. Kosoff Oct. 21, 1959, Lot 352.

CONNECTICUT COPPERS

Kagin's GENA Sale offers a selection of the Connecticut state copper coinage of 1785-1788, cataloged according to Henry C. Miller's definitive work, *The State Coinage of Connecticut*. An unusual opportunity for the colonial specialist is presented by the pieces from Miller's own collection, numbered in water-soluble white ink in the obverse fields by him in preparation of his original catalog, an unusual direct numismatic link to a classic in its interest area.

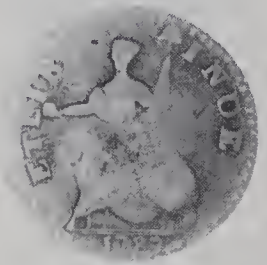

1185 **1785** Miller 8-D, **Good-4**, dark. Only one known in Crosby's day (1873-1875), at most only 8 traceable today. Last one sold at EAC Sale 1975 for \$750 (fine).

1186 **1787** Miller 1, 1-A, **VF-30**. Small Head facing right.

1187 **1787** Miller 4-L, **EF-40**. Horned Bust variety with massive die break attached to shoulder. Typical dark chocolate planchet with reverse less sharp and more granular than obverse. Scarce this nice.

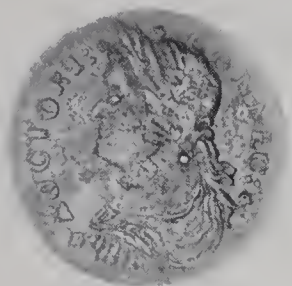

1188 **1787** Miller 4-L, **VF-30**. Early die state with "horn" away from bust.

1189 **1787** Miller 11-A, Smallest Head right. About **VF-20** obverse with typical softness in center, reverse **Fine-12** with usual softness in center. Superior to most. Quite scarce thus.

1190 **1787** Miller 33.8, Z-13, **Fine-12**. R-6.

1191 **1787** Miller 33.10, Z-8. Sharp **AU-50**. EC corrected from FC and ET from FT. Better than so-called "Finest Known" in Pine Tree EAC Sale 1975. Full struck reverse! R-6.

1192 **1787** Miller 33.19, Z-2. Sharp **VF-30**, planchet, better than usual with only small amount of imperfections in planchet. R-4.

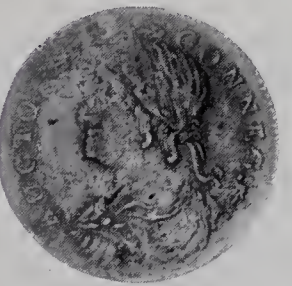

1193 **1787** Miller 33.28, Z-11. Sharp **Choice EF-45**. The "Snipe Nose," tiny planchet imperfection lower right.

1194 **1787** Miller 33.32, Z-13. Sharp **VF-30**.

1195 **1787** Miller 33.43, HH2. **VF-20**, "ET-LIR" variety. R-6.

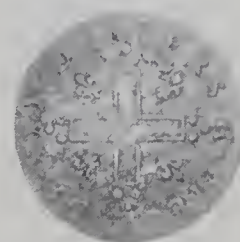

1196 **1787** Miller 34, FF1. Sharp **Choice EF-45**. "ET-LIR" variety. Unusually nice planchet. R-4.

1197 **1787** Miller 37, 5-e. Sharp **VF-30**, tiny edge nick. Draped bust left, R-4.

1198 **1788** Miller 7.E. Sharp **VF-30** obverse, reverse softly struck with some porosity of planchet. High R-6!

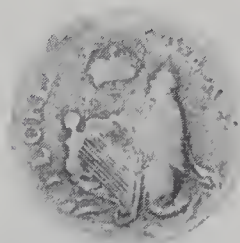

1199 **1788** Miller 10.C, struck over another coin. **Fine-12**. R-6.

FRENCH COLONIES

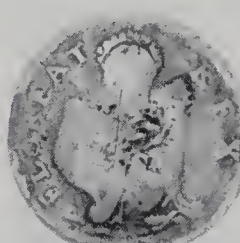

1200 **30 deniers 1711-D** (Lyon Mint) billon, Charleton P. 6. **Fine-12**. Mosquetaire issue named for cross on reverse which recalled cloak design of royal Musketeers. Called very scarce in Walter Breen's *North American Colonial Coinages under the French Regime (1640-1763)*. Most successful issue for New France. The Mosquetaires are among the few French colonial coins to actually circulate in what became Canada! (\$100-125)

NEW JERSEY COPPERS

1201 **1681 St. Patrick farthing, VG-8** with usual softness at small portion of edge. Worm and Martlet bird under king with Martlet struck over figure 8. Brass plug invisible. Scott-Taxay lists the Martlet and figure 8 variety as High R-7 (four to six known) but not this! EX: 1978 GENA Sale.

1202 **1681 St. Patrick farthing, VG-8**. Double annulet under king, well centered.

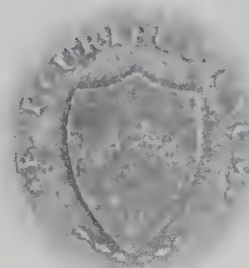

1203 **1681 St. Patrick farthing, VF-30**. Martlet (bird) and double annulet under king. Next finest known, second only to Garrett piece, high R-7 with only four to six known.

FELIX SCHLAG — JEFFERSON NICKEL
COMMEMORATIVE PANEL & MEMORABILIA

- 2219 Commemorative notarized panel autographed by sculptor Felix Schlag, winner of the 1938 competition for a new nickel design, 10¾ x 8½ inch cardboard with die cut hole containing 1938 Proof nickel and collotype photo of Schlag's original design with three-quarters view of Monticello (later rejected by the Mint in favor of present lifeless full-face view). One of 150 panels autographed by Schlag in April 1938, autographed and certified by notary Paul M. Wagner. Accompanied by autographed photos of Schlag in his studio in 1938 and a later photo of an aging

sculptor with monumental modern portrait head of Lincoln, plus autograph letters regarding his work and life to a prominent nationally known numismatist shortly before Schlag's death in the early 1970's; and the August 1973 *COINage* story by Lee Martin. An exceptional group of memorabilia recalling the career of a figure destined for numismatic immortality, whose signature was added at long last to his nickel obverse in 1966, almost 30 years after the first pieces were struck. (\$400-450)

LIBERTY SEATED, STARS OBVERSE 1838-1853

RARE 1838 PROOFLIKE LIBERTY SEATED DIME

SEE COLOR PLATE

- 2248 **1838** Large stars, **MS-63 Select Brilliant Uncirculated** with some claims to Choice-65. A dazzling Prooflike, fully struck specimen, meticulously well defined in every detail. Possibly struck from Proof dies, perhaps as a presentation piece for a visiting dignitary (as many early pieces were). Lovely light golden toning about peripheries. A few miniscule hairlines in fields, but nothing of any noteworthy significance. An item that is sure to induce spirited bidding by the Liberty Seated dime specialists.
- 2249 **1838** A-6 Partial drapery, **AU-50** sharpness, but cleaned and recolored, now toning to a more natural coloration. Well struck with full head, foot and stars. This variety is the result of clashed dies, the partial drape being part of the letter E in DIME from the reverse. Very scarce and elusive in better grades.
- 2250 **1838** Small stars **EF-40**, golden toned, usual light handling marks. Scarce first year variety type.
- 2251 Group of four: **1838** Small stars; **1838** Large stars; **1839-O** Large O; **1839-O** Large O. **VF-20**, old cleaning, most beginning to tone. All different variety types. Scarce. (Total: 4 pieces)
- 2252 **1839 AU-50**. Golden with touches of peripheral iridescence. Sharply struck with full head, toes, stars and wreath. Tiny rim bump at 4 o'clock, but otherwise quite lovely.
- 2253 Group of three: **1839 Choice EF-45**, slightly porous surfaces caused by harsh cleaning of time past; **1877-CC EF-40**, nice specimen from the popular Carson City Mint, brilliant; **1887-S AU-50**, reflective fields help accentuate light mauve toning on obverse. (Total: 3 pieces)
- 2254 **1839-O** A-3, Large O (recut O in date). Mintmark first cut too low and to the right. **EF-40**, relatively clean, problem-free surfaces. Rare variety type. R-7.
- 2255 **1839-O** A-6, Large O, **VF-30**. Nice wholesome piece, only a few pinpoint rim nicks. Shattered reverse variety — unknown in Uncirculated. Rare. Ahwash states, "I've only seen one other specimen of this variety. I consider it a low R-7 in any grade."
- 2256 Group of 16: **1839-O** Small O, **1845**, **1845-O**, **1856** Large date, **1859-S**, **1860-S**. - 2266 Group of four: **1844**, **1856** Small date, **1865-S**, **1880**. **Fine-12**. Scarce key dates including the popular 1844 Orphan Annie Dime. (Total: 4 pieces)

2595 **1842** Small date, **MS-63 Select Uncirculated** near Choice. A very attractive and desirable coin, almost fully struck and with full luster under iridescent dark russet, blue and violet toning. A few contact marks and hairlines, all of a trivial nature and all hidden by the toning. No significant impairments whatsoever.

2596 Pair: **1842** Small date, **EF-40**. Light toning, some hairlines. Reverse rim cud at 11 o'clock, pair of small obverse rim cuts on either side of the date, another at 10 o'clock. **1843 EF-40**. Minor rim cud under date. Reverse die break connecting the eagle's beak to the rim and his wing. Medium gray toning. An attractive, high grade pair. (Total: 2 pieces)

LIBERTY SEATED, NO MOTTO 1856-1866

2608 **1871-CC VF-30**. Once cleaned, now silvery-gray in color. Evenly worn and no significant impairments. Good eye appeal. Carson City half dollars are quite popular and we expect considerable competition for this piece.

2609 **1873-CC** No arrows. Sharp **VF-30** obverse, sharp **Choice EF-45** reverse. Acquired as EF and rare at \$750 some years ago. While present references do not value it this high, it is rare above fine condition and undervalued in most references.

CHOICE 1907 ROMAN DATE
HIGH RELIEF DOUBLE EAGLE

SEE COLOR PLATE

3220 **1907 MS-65 Choice Brilliant Uncirculated.** The "most beautiful U.S. coin." Wire rim type. Gorgeous satiny light greenish-gold surfaces. Fully struck with exceptional detail in face, skirt, leg and toes. Immensely popular type and always in great demand.

This issue soon became known as "Teddy Roosevelt's Godless Coins," since the motto "In God We Trust" was omitted from the design as Augustus Saint-Gaudens thought it would be sacrilegious. However, the motto became official by Congress in 1900 under President Taft and the dies were altered so that the motto appeared thereafter. Although "In God We Trust" appeared on all gold coins since 1866, it was optional as the official motto was E PLURIBUS UNUM. Now we have both mottos appearing on our coins.

3275 **1798 B-19 Fine-12.** Lightly cleaned. Pair of scratches behind Liberty's head, another across her shoulder. Evenly worn. Diagnostic obverse die crack, prominent above and below the bust. In all, an appealing example of this variety.

3277 **1799 B-19 Choice EF-45.** Artificial toning in shades of gray like a silver coin usually becomes after being repeatedly bleached. Clashed dies. Obverse rim nick at 3 o'clock. Several obverse digs including some between the date and rim. Obverse possibly lightly whizzed at one time, most noticeably behind Liberty's head.

3278 **1799 B-18 EF-40.** Obverse die crack from rim at 8 o'clock through three stars and date; reverse crack through ED of UNITED. Only the slightest softness at reverse center, even toning and free of adjustment marks. Pleasing high grade example of this type.

GOBRECHT DOLLARS 1836-1839

- 3283 **1836 MS-60 Brilliant Uncirculated.** C. GOBRECHT F. on base, stars in field on reverse. Normal coin die alignment. Light gray in color. A very attractive coin in terms of strike and an almost total lack of marks but, unfortunately, it appears to have been chemically cleaned resulting in a pickling appearance, most notably on the reverse. There is also evidence of two noticeable streaks of planchet roughness on the obverse, the first extending from the rim at 7 o'clock through the shield while the second extends from Liberty's left knee, down her leg to the rim under her foot. These two areas appear to meet at her knee, suggesting the possibility a thin piece of irregular scrap metal was resting on the planchet at the time of striking. Except for the pickling look already mentioned, the reverse is exceptional, as close to a full strike as possible.

Unquestionably, a very unusual coin. Aside from the pickling and planchet roughness on the obverse, this coin is exceptional, leaving one to only guess as to why it was subjected to a chemical bath in the first place. Scarce and probably worth a generous bid over what an average appearing MS-60 would bring.

- 3284 **1836 Sharp VF-30.** Variety with C. GOBRECHT F. on base of rock. Plain edge. Reverse with eagle flying left amid stars. Nice sharp details, usual complement of handling marks, traces of luster on reverse. Still much superior in quality to those usually encountered.

LIBERTY SEATED, NO MOTTO
1840-1865

- 3285 **1840 EF-40.** Attractive piece except for some digs on Liberty's legs. Lower mintage coin.
- 3286 **1840 VF-30.** Nice problem-free coin for this grade with no discerning marks.
- 3287 **1841 VF-30.** Would be a super coin for the grade except for a large rim ding on obverse at 2 o'clock.
- 3288 **1840 VF-20.** A few small obverse scratches.
- 3289 **1841 VF-20.** Numerous obverse marks.
- 3290 **1841 Fine-12.** A few light obverse marks. Lightly cleaned.

- 3291 **1842 AU-50.** Consigned to us as a Proof but upon close examination we believe it to be a full prooflike. Diagnostic file marks between shoulder and crook of Liberty's elbow, but other characteristics listed in Breen's *Encyclopedia of United States and Colonial Proof Coins* are not present. Also, the strike is not sharp and there is some weakness to Liberty's head. Violet-gray toning with brilliance about the devices. Contact mark by Liberty's right breast. A few hairlines. Close examination suggested.
- 3292 **1842 EF-40.** Very pleasing coin with light golden toning on both sides. Small carbon spot on Liberty's right arm.

- 3299 **1843 VF-20.** Actually close to EF quality except for numerous obverse marks and an 11 o'clock rim ding.

- 3300 **1843 VF-20**. A problem coin with evidence of cleaning and rim dings. Reverse has typical weak strike.
- 3301 **1843 Choice EF-45**. Very pleasing coin with virtually no problems. Bluish tone starting on obverse.
- 3302 **1844 VF-20**. Medium gray in color. Couple of obverse rim nicks. Two reverse rim cuts, one at 1 o'clock, the other at 7 o'clock. Small area of damage by A in AMERICA. Low mintage, just 20,000 struck.
- 3303 **1844 VF-20**. No major problems except for some light surface marks. Very scarce with a mintage of only 20,000.
- 3304 **1845 Choice EF-45**. Very fine example of this low mintage coin. Virtually mark-free and attractive.
- 3305 **1845 EF-40**. Dark gray with golden undertones. Cut in right obverse field. Just 24,500 struck.
- 3306 **1845 EF-40**. Actually of AU quality except for being cleaned on both sides. Mark-free.

- 3311 **1846 Choice EF-45**. Semi-prooflike. Scratch in right obverse field. Medium toning.
- 3312 **1846 Choice EF-45**. Brassy colored tone on both sides. Very tough coin to find this nice.
- 3313 **1846 EF-40**. Medium golden-gray toning.
- 3314 **1846 EF-40**. Some patchy toning.
- 3315 **1846 EF-40**. Good detail, but cleaned.
- 3316 **1846 VF-30**. Uneven gray toning. Attractive example of grade.
- 3317 **1846 VF-30**. Nice problem-free piece.
- 3318 **1846-O VF-30**. Harshly cleaned, now lusterless. Hairlines.
- 3319 **1846-O VF-20**. Once cleaned, now light silvery gray in color. Light hairlining as expected. Evenly worn.
- 3320 **1846-O VF-20**. Once cleaned, now unattractive shades of gray. Obverse rim marks between 7 and 9 o'clock. Several reverse rim marks.
- 3321 **1847 Choice EF-45**. Whizzed to resemble mint state. Obverse rim bruise at 5 o'clock. Contact marks on Liberty's leg, thigh and abdomen. Pale golden gray in color.
- 3322 **1847 EF-40**. Lightly cleaned. Small depression in right obverse field. Contact marks on Liberty's chest.
- 3323 **1848 Choice AU-55**. Wear noted at high points but obscured by deep grayish toning with blue highlights. Attractive with prooflike fields. Mintage of only 15,000 pieces.
- 3324 **1848 VF-30**. Polished. Area around date wire brushed. Right obverse field reworked in attempt to remove a punch mark that apparently left a bulge on the reverse. Low mintage of 15,000.
- 3325 **1848 VF-30**. Medium greenish-golden gray toning. Light hairlines.

- 3326 **1848 VF-20**. Cleaned but still with some toning about the devices. Several tiny obverse edge nicks. Mintage of 15,000.
- 3327 Group of three: **1848 Good-4**, evenly worn, cleaned, bump on rim under date, cut on eagle's right wing; **1859 VG-8**, harshly cleaned, usual circulation marks; **1860-O VF-30**, in terms of wear but wire brushed. (Total: 3 pieces)
- 3328 **1849 Choice EF-45**. Appears to have been lightly whizzed or wire brushed then toned in shades of green and gold giving it a silky satin-like appearance. Wire edge. Attractive in its own right.
- 3329 **1849 EF-40**. Medium gray toning with gold and blue undertones. Light obverse scratch across Liberty. Probably once cleaned long ago.
- 3330 **1849 VF-30**. Cleaned at one time, now with multi-colored peripheral toning. A few light scattered marks.
- 3331 **1849 VF-20**. Medium gray-violet toning. Hairlines. Obverse edge bump at 11 o'clock.

- 3332 **1850 AU-50**. Brilliant. Apparently a business strike using proof dies as mentioned by Breen in *Encyclopedia of United States and Colonial Proof Coins*; B-3 obverse showing the base of the 0 in the date double punched and the reverse of B-1 with die cracks and a line slanting through the horizontal stripes of the eagle's shield. Fully prooflike with wire rims. AU-55 in terms of wear, but downgraded 5 points due to scattered contact marks. Small cut in obverse rim at 1 o'clock, edge bruise below date. Scattered hairlines. Scarce. Only 7,500 struck.

Your mail bids are important! In all of our sales, a large number of lots "go to the book." We realize that many collectors are unable to attend auctions in person. Mail bids might be their only opportunity to obtain material they desire. Also, many "bargains" have been found by knowledgeable and active mail bidders.

Feel free to include any comments or suggestions you may have to make our catalogs a more useful and accurate mail bid tool.

3333 **1850 Choice EF-45.** Dark slate toning that makes a close examination of the surface difficult. Parts of the surface appears to be deep prooflike while other areas appear to be polished. Much of the detail, denticles, head, star, feathers and lettering are quite weak. Base of O in date double punched. Some hairlines and contact marks. Scarce as a date, just 7,500 struck.

3334 **1850 VF-30.** Light cleaning hairlines about the central devices set against dark gray peripheral toning. Even wear. No distracting marks. Scarce. 7,500 struck.

3335 **1850-O VF-30.** A few contact marks on the figure of Liberty and near the eagle's head. Medium to dark gray toning.

3336 **1850-O Fine-12.** A few contact marks but not as many as one would expect of a well circulated coin. Dark toning. A few light edge nicks. Popular branch mint issue.

3337 **1850-O VG-8.** Attractive, evenly worn example. Three or four minor edge bumps but none obtrusive.

3338 **1854 VF-30.** Evenly worn, no serious problems. Light to medium bluish-gray toning. 33,140 minted. Scarce.

3339 **1854 VF-20.** Light gray. No distracting marks. Good looking example of this grade and date. Rarer than its mintage would indicate.

3340 **1853 VF-20** Light gray in color. Probably cleaned at one time.

3341 **1853 VF-20.** Quite attractive with pleasing medium gray toning. Usual encountered circulation marks none of which are disfiguring.

3342 **1856 VF-30.** Once cleaned, now with streaked obverse toning and an even golden gray reverse toning. A few light scratches in right obverse field near the stars. Light scratch leading away from Liberty's forehead.

3343 **1856 VF-20.** Cleaned. Two prominent contact marks on Liberty's chest, three or four additional in right obverse field. Hairlines. Pale toning.

3344 **1856 VF-20.** Contact mark on Liberty's cheek. Darker peripheral toning. Very light hairlines from an old cleaning.

3345 **1857 AU-50.** Cleaned and now brilliant. Usual soft strike on Liberty's head and foot. Light scratch transversing eagle's neck, otherwise no serious marks. Attractive high grade example of this date.

3346 **1857 VF-20.** Darker gray fields set against lighter gray devices. Relatively clean surfaces considering the amount it circulated. Pleasant example of this date. 94,000 struck.

3347 Group of three: **1859 VG-8**, harshly cleaned, reverse scratches; **1859-O VF-20**, cleaned at one time, now violet, gold and gray in color; **1859-S Good-4**, evenly worn, cleaned at one time but not to the point of unpleasantness. (Total: 3 pieces)

3348 **1859-O MS-63 Select Uncirculated.** Lustrous. Trace of light toning. Scattered marks. Typical of the hoard that the government released in the 1960's.

3349 **1859-O AU-50.** Well struck overall with fewer than the usual complement of bag marks. Tiny rim nick noted above T in STATES on reverse.

3350 **1859-O Choice EF-45.** Cleaned to a dull brilliance. Somewhat weakly struck especially noticeable with the lack of star and head detail.

3351 **1859-O Choice EF-45.** Prooflike fields, light toning. Scattered hairlines and minor contact marks.

HENRY CHAPMAN
1921 MORGAN DOLLAR PROOF

SEE COLOR PLATE

4176 1921 Select Brilliant Proof-63. One of 12 brilliant Proofs struck by the Philadelphia Mint for flamboyant numismatic auctioneer-dealer Henry Chapman after he learned of the Proof pieces struck for Farran Zerbe. The Mint had created an estimated 20 to 200 distinctly inferior quality Proofs for the go-getting Zerbe, but the 12 struck for the more discriminating Chapman are notably superior in quality, with deep mirror fields, partial cameo contrast and overall gray-brilliant appearance. In definite contrast to the Zerbe coins, the Chapman Proofs received careful handling at the Mint and are virtually free from disfiguring contact marks and other abrasions.

Silver dollar researcher Wayne Miller in his *Morgan and Peace Dollar Textbook* records his examination of four

surviving Chapman Proofs appearing in sales over the recent period, noting particularly their freedom from contact marks and the deep, mellow Proof glow characterizing all four coins. "Possibly because of the negative attitudes which have developed in recent years toward the inferior 'Zerbe Proof,' the prices realized for the 1921 Chapman Proofs have not been commensurate with their true rarity," Miller notes. He also states, "This coin was minted in far smaller quantities than any other Philadelphia Morgan dollar, with the possible exception of the 1878 Round Breast Proof. As this coin becomes more well known, its price should increase dramatically."

MAHOGANY FINISH UNITED STATES MINT MEDALS — 1861-1891

Few areas of U.S. numismatics can offer the potential of 19th century U.S. Mint medals, struck in high relief from dies engraved by the greats of coin design of the same era: William Kneass, Christian Gobrecht, James Longacre, John Reich, Robert Scot, Charles E. Barber and George T. Morgan, to name only a few.

Struck in pure copper with repeated blows of powerful presses, the medals were treated with a secret Bronzing Powder and baked to produce the characteristic prooflike red-mahogany finish of 1861 to about 1891. This patina cannot be duplicated today. Mint medals now sold are sandblast surface pieces on real bronze alloy with a rather unattractive yellow-tan patina wholly unlike the 19th century issues. Struck in very small numbers, these medals are cataloged in Robert W. Julian's definitive Medals of the United States Mint: the First Century, published in 1977 by the Token & Medal Society.

This area is increasingly attracting the interest of a vanguard of farsighted, knowledgeable collectors.

KAGIN'S IS AT YOUR SERVICE

Kagin's is the company that listens. We have developed a full-range of services, from monthly programs to bank financing. For your convenience, we

have four locations across the country and in London. Our goal is to meet your every numismatic need. No other company can offer you more.

MONTHLY INVESTMENT PROGRAM

Kagin's Monthly Investment Program combines the personal satisfaction of collecting rare coins and currency with the benefits of an excellent annual rate of appreciation.

By enrolling in Kagin's monthly program, you'll be able to systematically accumulate a diversified, investment-grade portfolio of rare coins and currency. You'll build your own personal portfolio, at your own pace, without having to make a large initial purchase. And you'll be able to take advantage of Kagin's exclusive automatic bank payment plan, available only through Kagin's.

Each purchase is covered by Kagin's Lifetime Guarantee of Authenticity and Grading, which means that all coins furnished by Kagin's will meet or exceed the grading standards of the American Numismatic Association, or they will be replaced or the purchase price refunded. This guarantee is backed by Professional Liability Insurance and Kagin's half-century reputation of integrity.

As a participant in Kagin's Monthly Investment Program, you have a thirty-day approval period in which you may return the current month's selection for exchange or credit. You also have complete trade-up privileges, giving you the option of receiving full purchase price credit for previous purchases within a twelve-month period toward more valuable coin or currency selections.

Now you, too, can join the millions of collector-investors who are enjoying the stability and fine annual appreciation of their numismatic investments. Call Kagin's today for more information.

ESTATE PLANNING SERVICE

The many years of careful and dedicated collecting you've invested in your coins should be matched by equally thorough estate planning. Careful planning can reduce your heirs' tax liability and ensure proper dispersal of your collection.

Kagin's is an important part of the estate planning team. We will work with your attorney, financial advisor, or accountant to tailor a program to your objectives and your specific needs.

Take advantage of Kagin's half-century experience in numismatics. There is no charge for consultation,

and your estate will receive lower-than-normal commission rates at liquidation. Contact a Kagin's professional today for confidential consultation.

RETIREMENT PROGRAMS

Kagin's is the first numismatic company to earn Internal Revenue Service approval to act as custodian for IRA's, Keoghs, and qualified pension and profit-sharing plans.

Numismatics may be used in qualified pension and profit-sharing plans and in Keoghs, provided that investment decisions are not self-directed. We can also serve as custodian for your stocks, bonds, and other financial assets. Kagin's service includes annual appraisals and rapid attention to your needs and questions.

PARTICIPATING NUMISMATIC CERTIFICATE

One of the many advantages of buying numismatics through Kagin's is our innovative approaches to individual client needs. Kagin's is the first and only firm in the industry to offer current income on numismatic investments.

This unique program is Kagin's Participating Numismatic Certificate. It offers not only the proven appreciation record of numismatics, but also a fixed rate of current income.

Call a Kagin's specialist today for more details.

LEVERAGED FINANCING

Kagin's is the first company to offer bank financing of numismatic material, including auction purchases.

Our program provides a simple and direct method to virtually double your purchasing power so you can take advantage of today's excellent buying opportunities.

AUCTION BIDDING SERVICE _____

If you are unable to attend a Kagin's auction, you can bid on material by mail or take advantage of Kagin's unique "You Are There" service. A.M. (Art) or Don Kagin will personally serve as your representative at the auction. This service allows you to avoid the situation of not receiving the material you desire because you were unable to attend in person.

This personal service is provided free of charge at all Kagin's auctions.

WANT LIST SERVICE _____

Kagin's numismatic professionals attend major coin shows throughout the country. They are uniquely positioned to make advantageous acquisitions for our clients, on approval or otherwise.

When you send your want list to Kagin's, our professionals will use them as a basis for auction purchases, without obligation on your part, or will buy specific items for you on request and within predetermined price limits.

Art or Don Kagin are always available for personal consultation in numismatic matters.

THE PERSONAL TOUCH _____

When you consign your coins or currency to a Kagin's auction, you'll have the peace of mind of knowing that your collection will receive Kagin's personalized treatment.

For consignments over \$50,000, we will pay all expenses for your airfare, hotel accommodations, and meals when you accompany your material to our nearest office — San Francisco, Des Moines, New York, or London. Your material will be personally evaluated by our expert numismatic staff. All paperwork, pregrading, and promotional arrangements will be made immediately, in your presence.

You will return home confidently, knowing your material will be receiving Kagin's professional handling.
